E. W. Hornung (1866–1921) was an English author and poet who wrote the A. J. Raffles series of stories about a gentleman thief in late 19th century London. After school in the UK, Hornung spent two years in Australia before returning to London. His life there was the [illegible] [illegible] Australian experiences strongly influenced his early writing. In 1898 he wrote "In the Chains of Crime", which introduced Raffles and his sidekick Bunny Manders; the characters were based partly on his friends Oscar Wilde and Lord Alfred Douglas, and also on Sherlock Holmes and Dr. Watson, the characters created by Hornung's brother-in-law, Arthur Conan Doyle. The death of Hornung's son in the First World War brought an end to Hornung's [illegible] and he went to join the YMCA, [illegible] in England then in France, where he helped run a canteen and library and published two collections of poetry. After the war he wrote more poetry and an account of his time in France. Hornung's fragile mental [illegible] was weakened by the stress of his war work, and he died at the age of 54. Although much of Hornung's work has fallen into obscurity, his Raffles stories continue to be popular and have inspired numerous film and television adaptations. (Full article...)

From today's featured article

Interstate 496 (I-496) is an auxiliary Interstate Highway that passes through downtown Lansing in the US state of Michigan. A key component of the State Trunkline Highway System, the only route runs east–west from I-96 in the downtown area, turning south concurrently with US Highway 127. It passes a former assembly plant used by Oldsmobile and runs along or crosses parts of the Grand and Red Cedar rivers. Construction started in 1963 and the freeway opened on December 18, 1970. Segments south of downtown were built near a historically black neighborhood that dates from the early 20th century. Community leaders opted not to fight the construction of the freeway instead seeking a flexible housing and relocation assistance for displaced residents. The city named the freeway in honor of a former mayor when it opened in 1970, but the local historical society proposed that the state rename it after Ransom E. Olds, the founder of Oldsmobile and the REO Motor Car Company, after his mansion was demolished to make way for the freeway. The Michigan Legislature approved the name "Olds Freeway" two years later. Discharge Instruction for Urinary Tract Infections

- A urinary tract infection is an infection of the bladder or the kidneys
  - Normally your urine is free of bacteria. Urine is produced in your kidney, then flows into the bladder where it is temporarily stored. The bladder is like a balloon. When it become full of urine, the pressure of the urine on the wall of the bladder gives you the urge to urinate. The urine leaves your body through a small tube called the urethra. Infection occurs when bacteria enters the urinary tract and begins to grow
  - An infection can occur at different places along the urinary tract. Often the infection occurs along the urethra (urethritis) or in the bladder (cystitis). However, if the infection is left untreated, it can spread to the kidneys causing a more serious infection known as pyelonephritis
- Signs and symptoms of a urinary tract infection include
  - Frequent need to urinate only small amounts urine
  - Burning or stinging sensation when urinating
  - Lower abdominal or back discomfort
  - Fever
  - Cloudy or foul-smelling urine
  - Blood in the urine
- Often a urinary tract infection can be diagnosed by visiting your doctor and having your urine tested
- Treatment for a urinary tract infection includes
  - Drink at least 8 glasses of fluid per day
  - Empty your bladder at least every 3-4 hours
  - Fill my prescription and taking it as prescribed, even if you feel completely better
  - Tylenol or Motrin for fever and comfort
- Tips for preventing a recurrent urinary tract infection, especially for women
  - Drink plenty of fluids every day
  - Always wipe from front to back to prevent bacteria from entering the urinary tract
  - Urinate immediately before and after sexual intercourse
  - Wear cotton underwear
  - Always finish antibiotics completely when prescribed
- Seek medical attention if
  - High fever uncontrolled with Tylenol or Motrin
  - Severe abdominal or back pain
  - Large amount of blood in the urine, especially with weakness or dizziness
  - Inability to urinate or empty bladder completely

Forward

Along the highways of Burma there is placed at regular distances away from the dust of the road and under the cool shade of a group of trees a small wooden building called a "rest-house" where the weary traveller may rest a while and allay his thirst and assuage his hunger and fat gue by partaking of the food and water which the kindly inhabitants place there as a religious duty

Along the great highway of life there are such resting places, away from the heat of passion and the dust of disappointment, under the cool and refreshing shade of lowly Wisdom are the humble unimposing "rest houses" of peace who the little almost unnoticed byways of blessedness where alone the weary and footsore can find strength and healing

Nor can these byways be ignored without suffering. Along the great road of life hurrying and eager to reach some illusive goal, presses the multitude despising the apparently insignificant "rest-houses" of true thought not heeding the narrow little byways of blessed action which they regard as unimportant, and hour by hour men are fainting and falling and numbers that cannot be counted perish of heart-hunger heart-thirst, and heart fatigue

But he who will step aside from the passionate press, and will deign to notice and to enter the byways which are here presented his dusty feet shall press the incomparable flowers of blessedness, his eyes be gladdened with their beauty and his mind refreshed with their sweet perfume. Rested and sustained, he will escape the fever and the delirium of life and strong and happy he will not fall fainting in the dust nor perish by the way but will successfully accomplish his journey

8 Do Not Disturb

Press the DND button (if available) to toggle DND on and off.

When on, Do Not Disturb (DND) mutes the ringer on your phone. You may still see incoming calls.

9 Conference

1. From a connected call, if you are on hold, press the Conference button.
2. Make a new call.
3. When the new call answers but you have not yet connected after the parties answer).

The conference begins and the phone displays "Conference" instead of caller ID.

Repeat these steps to add more participants.

The conference ends when all participants hang up.

"Conference" a held call

1. From a connected call, if you are on hold, press the Conference button.
2. Press the phone line key or line button for the held call that you want to add.

Once the held call is connected to the conference, press Cancel to drop the call and return to the original call.

The conference ends when all participants hang up.

View & remove conference participants

During a conference, press the View Details softkey. To remove a participant from the conference, highlight their name and press Remove.

10 Transfer

1. From a connected call, if you are on hold, press the Transfer button.
2. Call the transfer target.
3. Press the Transfer button (before or after the party answers).

The transfer is complete. Confirmation displays on your phone screen.

11 Call History

Smile

From Wikipedia, the free encyclopedia

A smile is a facial expression formed by flexing the muscles near both ends of the mouth and by flexing muscles throughout the mouth.[1] Some smiles include contraction of the muscles at the corner of the eyes (see Duchenne Smile, below). Among humans, it is an expression denoting pleasure, amusability, happiness, or amusement. This is not to be confused with a similar but usually involuntary expression of anxiety known as a grimace. Smiling is something that is universally by everyone, regardless of culture, race, or religion, it is internationally known. Cross-cultural studies have shown that smiling is a means of communication throughout the world.[2] But there are large differences between different cultures. A smile can also be spontaneous or artificial.

Historical background

Many believe that the smile originated as a sign of fear. Primatologist Signe Preuschoft traces the smile back over 30 million years of evolution to a "fear grin" stemming from monkeys and apes who often used barely clenched teeth to portray to predators that they were harmless. The smile may have evolved differently among species and especially among humans.

Biology is not the only academic discipline that interprets the smile. Those who study kinesics view the smile as an affect display. It can communicate feelings such as love, happiness, pride, contempt, and embarrassment. More info: The Psychology of Human Smile. The Smile

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file;
many other file types (PDF, XLS, PS, RTF, etc) are supported

Information regarding Interpage's fax services may be found at:

http://interpage.net/faxing - Interpage Fax Services Overview

E-Mail: fnsl-support@interpage.net
Web: http://interpage.net

Thank you for your interest!

Notes: 1. Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text messages, only the above fixed sample message will be transmitted. You may establish a trial account for evaluative purposes by filling out the enclosed form on page 3, and clearly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. This fax is not a solicitation nor is it an offer. It was sent by a visitor to Interpage's web site who entered your destination number as a recipient of this test fax. A single destination may not receive more than two tests in a given week, however if you find that someone is sending you faxes in a continuous and abusive manner please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.

Other Interpage Free service trials

Does your voicemail call you?

Interpage VoiceMail will alert you before and after a caller leaves a message, send a WAV audio file of received messages to your phone or e-mail, and even call you and play the received message or fax or more telephone numbers! For details, visit: interpage.net/voicemail

Multiply the value of your old pager!

Like having a pager but need to receive messages on your cellphone or email as well? Want to have the same functionality as a pager on your cellphone without having to give out your cellphone number? Would you like to schedule and filter received pages and emails to multiple cellphones, pagers, and email accounts? Try Interpage's DirectPage service! For details, visit: interpage.net/direct

Know for sure that urgent alerts are received!

OutVoice text-to-speech and WAV file telephone dialout/broadcast verbally notifies landlines and cellphones, and can prompt the recipient to confirm receipt so senders can be certain that alerts are received! For details, visit: interpage.net/outvoice

REVIEW — TENNESSEE CURRICULUM STANDARD 7.2.so3.

The Geography of Population

State Performance Indicator: Define demographic concept. (i.e., population, population distribution, population density, growth rate).

Read the charts to answer the questions on the next page.

POPULATION GROWTH
• Population is the total number of people who live in a country, area.
• World Population is now about 6.6 billion.
Measuring Growth
• Birth rate measures the number of births per 1,000 people.
• Death rate measures the number of deaths per 1,000 people.
• The rate of natural increase is the birth rate minus the death rate.
• Today, the rate of natural increase is higher in Asia, Africa, and South America, than in Europe and North America.
Growth Challenges
• The Earth's resources are limited and not evenly distributed.
• Many countries have difficulty providing enough food, clean water, and housing. Many people move to cities for jobs and build carpet to squatter settlements.
POPULATION DISTRIBUTION AND DENSITY
• people are not distributed evenly around the world.
• Which they choose to live is partly known by climate, elevation, the resources.
• The largest populations are in habitable lands, which are number for Population
Population Distribution
• Only a small portion of the Earth's surface is habitable. Most of Earth's surface is water, or the land is too hot, cold, wet, or dry.
• Most people live in the Northern Hemisphere.
• About two-thirds of the world's population lives within 500 miles of an ocean.

FRONT

Thanks you for co[illegible] to [illegible] office landscaping in your new divisional headquarters We [illegible] our proposal herewith for the concept phase as agreed earlier

Since your available area is somewhat limited, we suggest a modular layout. This concept emphasizes space conservation and yet still provides for a modern, pleasing atmosphere

Enclosed are two floor plans. The first one will allow you to keep your present furniture The second was designed with the intention that our new space-saving modules be used. Notice that the latter will provide for more spacious accommodations and/or room for additional personnel Also included are the specification sheets on these products.

After you have had a chance to study our ideas, I would like to set up a meeting during October to discuss any further refinements I will have my secretary make the arrangements Please call me in the interim if you have any questions.

Test Description and Clinical Evidence

BCI pr ndex wo outputs based on a 4-gene prognostic (cluster-based PCR) signature, BC Prognostic and BC P ictive.

BCI Predictive ovides a measure of likelihood of bene from extended (>5 years) endocrine therapy (ET).[1] Pa ent results fr the lex are ass ed as either high or low likelihood of Benefit. BCI Predictive is based on the ratio of HOXB13 : IL17BR) and was validated in the N GS WA 17 trial.[2,3]

BCI Prognostic ...positive nodes) provides an individualized estimate for a pa ent's risk for distan recurrence in the late (5-10 years post-diagnosis) time fr me. BCI Prognostic for LN+ patients (1-3 pos tive nodes) is based on the algorithm combination of the BCI gene ...t ...ct with 11 mo ...ers and 1 mo ...grade BC prognostic fo LN+ pa ients was validated in clinical ...ays of >5yr patients with pos tive nodes who were treated with adjuvan endocrine and chemotherapy.[1]

Intended Use & Limitations

The Breast Cancer Index (BCI) Risk of Recurrence & Extended Endocrine Benefit Test is intended for use in patients diagnosed with estrogen receptor-positive (ER+), lymph node-negative (LN-) or lymph node positive (LN+, with 1-3 positive nodes), early-stage, invasive breast cancer, who are disease-free two (2) years post-dx. It is a quantitative assessment of the likelihood of both late (post-5 years) and overall (5-10 year) distant recurrence following an initial 5 years of endocrine therapy (LN- patients) or 5 years of endocrine therapy plus adjuvant chemotherapy (LN+ patients), and 2) prediction of likelihood of benefit from extended (>5 year) endocrine therapy. BCI results are supportive to the ordering physician's workup, treatment decisions require correlation with all other clinical findings. This test was developed and its performance characteristics determined by Biotheranostics, Inc. It has not been cleared or approved by the U.S. Food and Drug Administration. This test is used for clinical purposes. It should not be required as investigational or research. New risk information is used to guide patient care is the responsibility of the physician. Biotheranostics is certified under the Clinical Laboratory Improvement Amendments of 1988 to perform high complexity clinical laboratory testing.

GAS SUPPLY

Check all local codes for requirements, especially for the size and type of gas supply line required.

Recommended Gas Pipe Diameter

Pipe Length	Screwed Steel Pipe Inside Diameter		Tubing Type L Outside Diameter	
	Nat.	LP	Nat.	LP
0-10 feet (0-3 meters)	1/2" (12.7mm)	3/8" (9.5mm)	1/2" (12.7mm)	3/8" (9.5mm)
10-40 feet (3-12 meters)	1/2" (12.7mm)	1/2" (12.7mm)	5/8" (15.8mm)	1/2" (12.7mm)
40-100 feet (12-30 meters)	1/2" (12.7mm)	1/2" (12.7mm)	3/4" (19mm)	1/2" (12.7mm)
100-150 feet (31-46 meters)	3/4" (19mm)	1/2" (12.7mm)	7/8" (22.2mm)	3/4" (19mm)

NOTICE Never use plastic pipe. Check to see if it is electrically conductive. Use copper tubing or galvanized.

NOTICE Some home municipalities have anti-siphon local codes. Be always sure to consult your local authority and tax all such codes.

Installing a New Main Gas Cock

Each appliance should have its own manual gas cock.

A manual main gas cock should be located in the vicinity of the unit. Where doubt exists, or where its size or location is not adequate, contact your local authorized installer for installation or relocation.

Only pounds used or threaded nipple of gas piping suitable resistant to the action of liquefied petroleum gases. The gas leak must be checked for leaks by the installer. This should be done with a soapsuds solution washing for fittings or all suspected connections and if unexplained a pressure test should be made.

⚠ WARNING

Never use an exposed flame to check for leaks. Appliance must be disconnected from piping at inlet of controlling valve and pipe capped or plugged if the pressure test. Never pressure test with appliance connected; control valves will sustain damage.

A gas valve and ground joint union should be installed in the gas line upstream of the gas control to aid in servicing. It is required by the National Fuel Gas Code that a drip leg be installed near the gas inlet. This should consist of a vertical length of pipe has connected to the gas line that is capped with the nozzle in which condensation and foreign particles may collect.

The use of the following gas connectors is recommended:

— ANSI Z21.24-(R) Metal Connectors of Corrugated Metal Tubing and Fittings

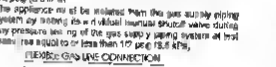
— ANSI Z21.45-Manufactured Flexible Appliance Connectors of Other Than All Metal Construction

All above connectors may be used if acceptable by the authority having jurisdiction. The size of the connector used requires that a flexible stainless steel connector meet or exceed these requirements.

Pressure Testing of the Gas Supply System

1. To check the inlet pressure to the gas valve, a 1/8" (3mm) NPT plugged tap plug, accessible for the gauge connection must be provided and shall stay in place of the gas supply connection to the appliance.
2. The appliance and its individual shutoff valve must be disconnected from the gas supply piping system during any pressure testing at test system at test pressure in excess of 1/2 psig (3.5 kPa).
3. The appliance must be isolated from the gas supply piping system by closing its individual manual shutoff valve during any pressure testing of the gas supply piping system at test pressures equal to or less than 1/2 psig (3.5 kPa).

FLEXIBLE GAS LINE CONNECTION



RIGID GAS LINE CONNECTION

Figure 7

⚠ WARNING

If any of the above procedure results in pressures in excess of 1/2 psig (14" w.c.) (3.5 kPa) on the appliance gas valve, it will result in a hazardous condition.

Checking Manifold Pressure

3 Star and 4 Star with Natural gas will have a manifold pressure of approx. hefty 3.5 w.c., 0.87kPa) for minimum input at 2.5" w.c. (.622kPa) for maximum input at the pressure regulator outlet with the inlet pressure to the pressure regulator from a minimum of 6.0" w.c. (1.5kPa) for high range of input adjustment to a maximum of 10.5 w.c. (2.61kPa).

2 Series Hydraulic Thermostat Natural gas will have a manifold pressure of approximately 5.7" w.c. (1.418kPa) at the pressure regulator outlet with the inlet pressure to the pressure regulator from a minimum of 7.0" w.c. (1.74kPa) for the purpose of input segmentation in a maximum of 10.5" w.c. (2.615kPa).

1 Series Millivolt Propane gas will have a manifold pressure approximately 10.0" w.c. (2.49kPa) for maximum input of 0.3" w.c. (1.562kPa) for minimum input at 8th pressure regulator outlet with the inlet pressure to the pressure regulator from a minimum of 11.0" w.c. (2.74kPa) for the purpose of input adjustment to a maximum of 13.0 w.c. (3.37kPa).

2 Series Hydraulic Thermostat Propane gas will have a manifold pressure approximately 10.0" w.c. (2.49kPa) at the pressure regulator outlet with the inlet pressure to the pressure regulator from a minimum of 11.0" w.c. (2.74kPa) for the purpose of input adjustment to a maximum of 13.0" w.c. (3.37kPa).

Windows® Fax and Scan

Create, scan, and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone line to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

Fax guide

The fax function lets you scan items and fax them to one or more recipients. You can send a fax from the printer by typing the fax number using a shortcut number or using the number book.

Note: To place a one-second dialing pause within a fax number, press [123].

The dial pause appears as a comma in the "Fax to" box. Use this feature if you need to dial an outside line first.

Sending a fax using the printer control panel

1 Load an original document face up, short edge first into the ADF or facedown on the scanner glass.

Notes: Do not load postcards, photos, small items, transparencies, photo paper, or thin media (such as magazine clippings) into the ADF. Place these items on the scanner glass.

2 If you are loading a document into the ADF, then adjust the paper guides.

3 On the home screen, touch Fax.

4 Enter the fax number or a shortcut using the Home screen or keypad.

To add more faxes, touch Next Number and then enter the recipient's telephone number or shortcut number, or search the number book.

Note: To place a dial pause within a fax number, press [123]. The dial pause appears as a comma in the "Fax to" box. Use this feature if you need to dial an outside line first.

5 Touch Fax.

Using fax shortcuts

Fax shortcuts are just like the speed dial numbers on a telephone or facsimile machine. You can assign shortcut numbers when creating permanent fax destinations. Permanent fax destinations or speed dial numbers are created in the Manage Shortcuts link located under Settings on the Embedded Web Server. A number number (1–99999) can contain a single recipient or multiple recipients, by creating a group fax shortcut with a shortcut number you can quickly and easily fax broadcast information to an entire group.

1 Load an original document face up, short edge first into the ADF or facedown on the scanner glass.

Notes: Do not load postcards, photos, small items, transparencies, photo paper, or thin media (such as magazine clippings) into the ADF. Place these items on the scanner glass.

2 If you are loading a document into the ADF, then adjust the paper guides.

3 Press [#] and then enter the shortcut number using the keypad.

Using the address book

Note: If the address book feature is not enabled, then contact your system support person.

Marsha's Terrible Job Interview

Marsha had a job interview with the Sunshine Biscuit Company last Monday. Her appointment with the interviewer was for 10:00 am. She had forgotten to set her alarm clock, so she woke up at 9:30 am and got to the interview an hour late, at 11:00 am.

Because she woke up so late, she didn't have much time to get ready. She took a quick shower and put on the first dress that she found in her closet. It was a very short dress that showed a little too much, the kind of dress a woman wears when she's trying to attract a boyfriend at a cocktail party. She also put on a lot of very cheap perfume, the kind you can smell down the street.

She left the house without eating breakfast and she ran to the bus stop. The bus was late in coming, but she didn't want to spend the money on a taxi. When she finally got to the Sunshine Biscuit company, she ran into the building and ran into the interview in office. She ran up to the secretary's desk and screamed, "I'm here! My bus was late!" The secretary was a bit surprised, but asked her who she was and what time her appointment was for. Marsha answered, "I'm Marsha and my interview is for right now." Of course, it was already 11:00 am and her interview had been scheduled for an hour earlier.

The secretary called the interviewer, Mr. Green, on the intercom and he told her to send Marsha in.

Marsha was chewing gum as she entered the office. She took a seat without saying anything to Mr. Green. Mr. Green was slightly surprised to see Marsha act so boldly even though she was an hour late. He introduced himself and asked how she was. She said that she was feeling lousy and that the public transportation in the town was awful. He asked her what kind of position she was looking for, and if she had a resume. She said that she had no resume because she didn't have time to write one. She also had no idea of what kind of job she wanted, she just wanted one that paid well. He asked her if she had any questions for him, and she asked him if she could have Wednesday afternoons off so that she could see her psychiatrist. She also asked him if the company gave at least a two-week vacation. He asked her what skills she had and she answered that she could type, but that she couldn't take a typing test because tests made her nervous.

Mr. Green thanked Marsha for coming, and she asked, "Do I get a job or not?" He said that he would call her if there was an opening, and she said, "Well, hurry please, because I'm broke and I can't pay the rent."

I AM THE GREAT CORNHOLIO!
BEAVIS AND BUTT-HEAD

pourquoi? (Cusson 1983) et dans le *Courrier social du crime* (Cusson 1983). Cet article aura à combler cette lacune. Par la même occasion, je présenterai un certain nombre de travaux qui n'avaient pas été évoqués dans les ouvrages mentionnés même s'ils réclament un peu de vue probable à ceux du l'analyse stratégique. C'est ainsi que seront résumés des travaux de recherches qui montrent que l'évolution de la criminalité est reliée aux changements dans les habitudes de vie des gens (Cohen et Felson, 1979; Felson et Cohen 1980; Cohen Felson et Land 1980; Felson 1983). Par la suite je proposerai un modèle théorique centré sur la notion d'opportun té qui tente d'intégrer plusieurs observations faites au cours de recherches sur le processus de prises de décisions des délinquants sur le phénomène valeur collar sur le choix de la cible et sur les facteurs associés à la récidive (Brantingham et Brantingham 1978, 1980; Hindelang Gottfredson et Garofalo, 1978 Clarke 1980 Van Dijc et Steenants 1980 Clarke et Mayhew 1980; Clarke 1985 Clarke et Cornish, 1985)

Malgré la caractère disparate de cette production et malgré l'absence de concertation entre ces chercheurs il n'en dégage une remarquable communauté de perspective On pourrait adopter du point de vue probabiliste et leurs analyses convergent vers des conclusions complémentaires. Cette communauté de perspective se manifeste sur nous points.

1 L'attention se porte sur le crime et non plus sur le criminel, sur l'acte du délinquant plutôt que sur ses prédispositions sur ses décisions plutôt que sur ses pulsions. Depuis la mi siècle des criminologues ont eu tendance à raisonner en termes de penchant ou même La question essentielle étoit : «Comment devient-on délinquant?» On voulait rendre compte du phénomène criminel par des caractéristiques installées à demeure chez certains individus traits de caractère modes de fonctionnement internes sous-culturels les intériorisées identité négative ingérée par l'étiquetage. Toute explication passait obligatoirement par un individu, doué d'une inclination ou même. La légitimité de cette démarche n'est par en cause Il est en effet difficile de cibler qu'il y ait des individus plus portés au crime que d'autres Il s'agit d'un acquis qu'on aurait mauvaise grâce à contester Il n'en reste pas moins possible de partir de cet acquis et de se demander dans quelle mesure ances les tendances criminelles d'un individu se renforcent-

elles ou non? La penchant au crime est une condition nécessaire elle n'est pas suffisante C'est nous attendant à un cheminement pointé de convergence.

2 On tient compte des circonstances dans lesquelles on produit un délit et qui le rendent possible. Pour réaliser son vol, le voleur doit entrer en contact avec une cible susceptible de le satisfaire Dans cette rencontre, il se trouvera mis malgré toutes ses démarches Il aura lui un connecteur pas de vol se devra revenir chez lui bredouille comme la mineur qui n'a pas tué son gibier. Ainsi donc l'occasion, l'opportunité a un rôle déterminant à jouer dans le crime Le voleur qui a la chance de tomber sur un grand nombre de cibles importantes connaîtra plus de vols que son collègue qui n'a pas cette chance.

3. La délit est au comme une décision influencée par ses résultats anticipés et non comme l'effet d'une cause quelconque. Ces nous semblait à concevoir le délinquant comme un être actif qui profite des opportunités qui s'offrent à lui pour maximiser ses gains. La crime apparaît alors comme le fruit d'une démarche rationnelle. La limite de cette rationalité sera figurant raison nier Le délinquant fait des erreurs de jugement Il raisonne à très court terme, il perçoit sélectivement l'information disponible et Il analyse nouvellement (cf Clarke et Cornish, 1985) Malgré tout, le postulat de la rationalité s'avère utile On comprend mieux le délinquante quand on présuppose que le délinquant fait une nouvelle estimation des avantages et des inconvénients de son action quand il est sur le point d'agir

L'analyse stratégique procède les chercheurs à adopter un point de vue ressemblant différent du celui que l'on trouvait jusqu'à maintenant en criminologie De ne fait elle favorise l'émergence ce questions également différentes, soumis en fait foi l'énumération qui suit

a) Quelles sont les étapes ou processus du prise de décision qui conduit au crime?

b) Comment les délinquants préparent-ils leurs délits?

c) Comment les délinquants extérieurs aux milieux délit ou d'autres opèrent-ils—opérations organisation ..)

d) Quelles sont les fins poursuivies par les délinquants lors de l'exécution de leurs délits?

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fifteth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Imprimatur
Most Rev. George W. Ahr
Bishop of Trenton

GRIPSTER SPORT, INSTALLATION INSTRUCTIONS

For proper functionality it's highly recommended you read instructions
TO REMOVE: DO NOT use HEAT are any CHEMICALS!

GRIPSTER ADOPT

TechSpec's GRIPSTER Tank Grips/Grip Pads use a removable adhesive that can be rebonds and re-used. Keep materials in a clean environment and try not to touch edges When handling, use finger tips of inside surface pads. (Place on a bench WAX PAPER when not in use).

CHOOSING / CREATING PATTERN

1. Explore all patterns and find one that read fits your riding style and personal look.
2. Trace pattern onto the paper liner of adhesive side of grip skin material.

   Where tracing pattern onto the paper liner you are tracing "ADHESIVE SIDE" of your pattern. Pattern comes read, "SIDE ADHESIVE"
3. Using a sharp pair of scissors cut your pattern out of the material.
4. Using a non-metal grinder or bench the grinder, recondi the outside perimeter of the GRIP PAD. See diagram below and Modified Tank Pro example.

APPLYING TO MOTORCYCLE

1. Wash bench of all dirt and oils. Be sure hands are dry.
2. Where the bike surface with a cork / brake / contact cleaner or at adhesive a rubbing alcohol. Surface temperature bank be of minimum 70 degrees F. Hair drier will do.
3. Apply the GRIP PAD by removing a "SMALL" section of the back liner. Align the pad and apply the exposed sticky surface to the bike. Your GRIP PAD is now in place and ready is be applied.
4. Carefully remove the remaining liner and ROLL the skin into place. Starting from the inside out will help perform the formation of bubbles highly of the pad's surface
5. Allow 12 hours for adhesive to cut up.

ADJUSTING / REMOVING FROM SURFACE (touch edges as little as possible)

Pick a corner that is exposed in little or NO wear. Work your finger nail between the tank and adhesive. Work this area until you have just enough material to pinch with your finger tips. If you notice the skin separating from adhesive STOP! WORK YOUR FINGER NAIL BETWEEN TANK AND ADHESIVE. Rest peel the pad off.

TechSpec's Gripster Grip Pads are a wear item. If you experience any separation, simply remove the skin, place on a piece of wax paper trim off the separated materials and replace back onto bike

GOLD EYE CLINIC
The Gold Standard in Eye Care

Daniel M. Gold, M.D
Jumah T. Abay, O.D.
JayAnna Byrd, O.D.
Daniel Ewing, O.D.

Your next visit at Gold Eye Clinic in Palestine is a dilated consultation exam with our surgeon Dr. Daniel M. Gold on

_____/_____/_____

This is NOT your surgery day. It is a 2-hour **consultation** visit. Please bring a driver with you if you do not feel comfortable driving after being dilated.
PRIOR to this visit, soft contact lens wearers are required to stop using them for 2 weeks and 3 weeks for hard or RGP contact lens wearers. This insures obtaining accurate measurements. We will need to reschedule your appointment if you do not discontinue contact lens wear.

At this exam we will

- Get measurements of your eyes
- Dilate your eyes
- Schedule your surgeries and post-op appointments
- Electronically sign your paperwork

Please bring ALL medical insurance cards to ensure proper billing. If we do not have ALL CURRENT MEDICAL INSURANCE CARDS WE WILL NOT SCHEDULE YOUR SURGERY. Your insurance will be checked a few days prior to your consultation visit and again a few days prior to the surgery date in order to get the most up-to-date information. ANY PREVIOUS CLINIC/OPTICAL balances MUST be paid in full or we will NOT see you for your consultation visit or schedule your surgery.

After cataract surgery you will be billed by three separate entities: 1) Daniel M. Gold, M.D. (doctor), 2) Palestine Laser & Surgery Center (facility) and 3) Anesthesia Associates (for anesthesia).

3.5.4 Shutdown Facts

Turning off the power without executing the proper shutdown procedure on a computer can result in data loss and file system corruption. Linux provides several different shutdown options. The table below shows common commands for shutting down the system.

Use	To	Example
	Shut the system down immediately. For the shutdown command	
shutdown -h now **halt** **init 0** **systemctl isolate poweroff.target** **systemctl isolate runlevel0.target**	**-h** specifies that the system halt or power off after shutdown. **now** forces the system to shut down without a delay. Any of these commands shuts the system down immediately.	
shutdown -r now **reboot** **init 6** **systemctl isolate reboot.target** **system.ctl isolate runlevel6.target**	Shut the system down immediately and restart. Any of these commands reboots the system immediately.	
shutdown -h *time message* **shutdown -r** *time message*	Shut the system down at the designated *time* and send a *message*.	**shutdown -h +5 System is going down** sends a message and shuts the system down in five minutes. **shutdown -h 12:00** shuts the system down at 10:00 pm. **shutdown -r +15** reboots the system in 15 minutes. **shutdown -r 24:00 System is going down at Midnight** sends a message and reboots the system at midnight.
shutdown -c Ctrl+c	Cancel a pending shutdown.	
shutdown -rf *time*	Reboots the system and skips the **fsck** utility on reboot. The **-f** parameter tends for reboot fast.	**shutdown -rf** reboots the system and skips fsck. **shutdown -rf +15** reboots the system in 15 minutes and skips fsck.
shutdown -k *message*	Sends a warning message, but does not shut down the system.	**shutdown -k Please log out of the system** sends the message to logged in users, but does not actually shut the system down.

When using the **shutdown** command to shut down the computer, the system does the following:

1. Sends a SIGTERM message to open programs to allow them to close.
2. Notifies logged in users that the shutdown process has initiated and the length of time before shut down.
3. Blocks users from logging into the system.
4. Shuts down all running programs and shuts the system.

4. The economy is in shambles with more than 23 million Americans out of work.

Of course it doesn't have anything to do with that

In his interview with the New Yorker, Obama revealed he is more than a liar and a crook and an incompetent. It turns out he's delusional.

What do I mean?

Listen to what Obama thinks are his first-term accomplishments:

1. the economic rescue;
2 *44 straight months of* job growth;
3 a reduction in carbon emissions;
4. a spike in clean-energy technology;

1. What does he mean by "economic rescue"? We're mired in five years of economic decline and malaise that would make Jimmy Carter flinch. Economic rescue? How about economic arson?

2 What does 44 straight months of job growth mean? Most people would assume that would mean more people are working, right? But that's not true. In fact, there hasn't been one day during the entire Obama presidency when as many Americans were working as on the day George W. Bush left office – which, by the way, was amid an economic crisis.

3 A reduction in carbon emissions? Naturally. With less industry, fewer people working, energy prices skyrocketing. I suppose the benefit of all this misery would be a reduction in carbon emissions. Does it make you feel better about higher prices and less money to spend?

4. A spike in clean-energy technology? Yes, it's true that Obama would target government grants to fat-cat campaign contributors who wanted taxpayer money to start up companies like Solyndra. We remember. Any day now those companies might actually produce something.

This is the best Obama can do. This is his track record.

Glaringly absent from the list was "Obamacare."

Even he can't bring himself to call that an achievement.

Where is the press to point all this out?

Where are the watchdogs?

Where was New Yorker contributor David Remnick to serve as the public's advocate?

They were AWOL – as usual.

However, there is something revealed in the interview

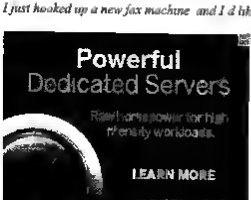
How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?



Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero, this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

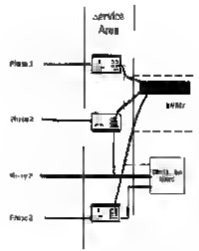

Diagram 2. Linking three segmented networks together via an Ethernet switch

The benefits of Powerline network segmentation

In larger installations, it is recommended to take advantage of the power segmentation nature of three phase power within the building to set up **separate** and distinct Powerline networks for the following reasons:

- Powerline intelligently shares the available bandwidth amongst all the nodes on the single network and therefore segmenting into smaller networks increases the bandwidth available per node

- Although the theoretical limit is 255 nodes per network, the Powerline collision domain is more efficient with up to a maximum of 64 nodes (Note each Power Ethernet node has 4 Ethernet ports so 64 nodes supports 255 Ethernet ports)

Glaxo Agrees to Pay $3 Billion in Fraud Settlement

By KATIE THOMAS and MICHAEL S. SCHMIDT

The British drug maker GlaxoSmithKline agreed to plead guilty to criminal charges and pay $3 billion in fines for illegally promoting the antidepressants Paxil and Wellbutrin and for failing to report safety data about the diabetes drug Avandia, federal prosecutors announced Monday.

The settlement marks the largest payment ever by a drug company, eclipsing the previous record of $2.3 billion set by Pfizer in 2009, the government said.

"Today's multibillion-dollar settlement is unprecedented in both size and scope," said James M. Cole, the deputy attorney general. "It underscores the administration's firm commitment to protecting the American people and holding accountable those who commit health care fraud."

The criminal fines of the settlement were announced by Novartis and GlaxoSmithKline had already set aside cash for the settlement. In a statement Monday, the company said it has since changed its compliance and marketing procedures.

Andrew Witty, the chief executive, sought to portray the illegal actions as part of the company's past.

"While these originate in a different era for the company, they cannot and will not be ignored," he said in the statement. "On behalf of GSK, I want to express our regret and reiterate that we have learnt from the mistakes that were made."

Two of the three misdemeanor criminal charges relate to the company's promotion of Paxil and Wellbutrin.

Prosecutors said the company paid doctors to attend conferences and other meetings to promote uses for the drugs that were not approved by the Food and Drug Administration. The company illegally promoted the use of Paxil in children and, in the case of Wellbutrin, marketed it for weight loss and sexual dysfunction when it was approved only to treat major depressive disorder.

MARKET VALUE ADJUSTMENT The Market Value Adjustment (MVA) is the amount added or subtracted from your Market Value Adjustment Account balance if withdrawals exceed the free withdrawal amount in any year. The MVA is used to

PENALTY FREE WITHDRAWALS The penalty free withdrawal (also known as the "free withdrawal") is the amount that is available to be taken out annually without incurring surrender charges. The penalty free withdrawal is calculated as 10% of the premium paid in Market Value Adjustment Account. If you take more than the penalty free withdrawal amount in any year, the withdrawal may be subject to surrender charges and a Market Value Adjustment. Withdrawals may also be subject to ordinary income taxes and IRS penalty taxes if taken before age 59½. Withdrawals reduce the death benefit and cash surrender value by the same proportion that the withdrawal reduces the account value. For example, if a withdrawal reduces the account value by 10%, the death benefit and cash surrender value will also be reduced by 10%. Withdrawals may also be subject to a Market Value Adjustment. See "Surrender Charge and Market Value Adjustment" for more information.

DEATH BENEFIT The death benefit will be paid to the Annuitant's estate as of the date of death and is payable to your beneficiary.

NURSING HOME WAIVER After the first contract year, you may withdraw all or part of your account value without incurring surrender charges or a Market Value Adjustment if you or your spouse are confined to a nursing home or hospital for at least 90 days. You must provide written proof of confinement from a licensed physician. This waiver is not available in all states. Please check with your agent or contact us for more information.

30-DAY WINDOW FOR RENEWALS At the end of each Selected Guarantee Period, you will have a 30-day window to withdraw your money without incurring surrender charges or a Market Value Adjustment. This window is available for 30 days after the end of the Selected Guarantee Period. If you do not withdraw your money during this window, your money will be automatically renewed for another Selected Guarantee Period. The new Selected Guarantee Period will have a new Guaranteed Interest Rate and a new Surrender Charge Period. The new Guaranteed Interest Rate will be the rate that is in effect on the date of renewal. You can find the current Guaranteed Interest Rates and Surrender Charge Periods in the table above.

ANNUITY PAYOUT OPTIONS

As mentioned previously, you may choose from a variety of annuity payout options. Each option has its own unique features and benefits. Please consult with your agent or contact us for more information about these options. Below are some of the most common annuity payout options:

- **Life Only:** This option provides you with a guaranteed income stream for the rest of your life. Payments will stop upon your death, even if you have not received the full amount of your premium.
- **Life with Period Certain:** This option provides you with a guaranteed income stream for the rest of your life, but also guarantees that payments will be made for a certain period of time, even if you die before the end of that period. For example, you could choose a life with period certain option that guarantees payments for 10 years. If you die after receiving payments for 5 years, your beneficiary will receive payments for the remaining 5 years.
- **Joint and Survivor:** This option provides you with a guaranteed income stream for the rest of your life and the life of your spouse or another person. Payments will continue to the surviving person after the death of the first person.
- **Period Certain:** This option provides you with a guaranteed income stream for a specific period of time, regardless of whether you are still alive. For example, you could choose a period certain option that guarantees payments for 20 years. If you die after receiving payments for 10 years, your beneficiary will receive payments for the remaining 10 years.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Test your fax machine without bothering friends

Posted by Rick on Oct 16 2006 in Riding Shotgun with Adam | 203 comments

I found this site today while trying to see if a fax machine was working correctly. It is always tough testing a fax because you have to have a friend who is home with a fax, and willing to help. Thanks to a commenter you can try this test fax service from HP as well.

This site lets you enter a fax number and in a few minutes, you will receive a test fax.

Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the *Automatic Reports* option to **Every Error** before attempting a test fax. This way even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products; consult the product *User's Guide* for specific steps.

1. Send a one page black and white text fax to **1-888-hpfaxme** (1-866-473-2963).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Privacy Policy

Globe Life And Accident Insurance Company cares about protecting its policyholders' privacy. In the process of providing the products and services you requested, we will collect, use and share certain information you provided. This Privacy Policy explains what information we collect and how we use that information. The policy also explains how we protect the security and confidentiality of your information.

Collection of Information

We collect and retain that information necessary for us to provide the products and services you requested. In that process we may collect non-public information from you as a result of: your completion of an insurance application or other forms; your transactions and experience with us; or from a consumer reporting agency such as MIB Inc.

Confidentiality of Information

We do not disclose any non-public information about you, either during or after your relationship with us to anyone except as permitted by law; such as to your authorized representative or in order to provide the products and services you requested or to comply with applicable laws or regulations.

Internal Protection of Information

We restrict access to non-public personal information about you to those employees who need to have that information to provide the products and services you requested. We maintain physical, electronic and procedural safeguards to comply with federal regulations to guard this information.

Disclosure of Our Privacy Policy

We are sending you this notice for informational purposes and may amend this Privacy Policy at any time and will update it as required. We also post our current privacy notice at our website: www.globelifeandaccident.com

Important Information For Those Paying With A Personal Check

If you make payment with a personal check, we may convert your payment to a one time electronic debit item in the amount of your check, which may clear your account as soon as the day we receive your check. Payment by check authorizes this transaction. The name of the company paid, check number, date and amount will be shown on your bank statement, but the check will not be returned. The original check will be destroyed in accordance with rules governed by the Federal Reserve. For more information regarding this process, go to:

FF—Permitted benefits under a qualified small employer health reimbursement arrangement.

GG—Income from qualified equity grants under section 83(i).

HH—Aggregate deferrals under section 83(i) elections as of the close of the calendar year.

Box 13. If the "Retirement plan" box is checked, special limits may apply to the amount of traditional IRA contributions you may deduct.

Box 14. Employers may use this box to report information such as state disability insurance taxes withheld, union dues, uniform payments, health insurance premiums deducted, nonqualified pension, and adjustment amounts, or transfer of the decedent's pension or annuities and utilities. Railroad employers use the box to report RRCA compensation, Tier 1 tax, Tier 2 tax, medicare tax and additional Medicare tax.

Box 16. Enter **Copy C** on Form W-2 by at least 3 years after the due date for filing your income tax return. However, to help protect your social security benefits, keep Copy C until you begin receiving social security benefits, just in case there is a problem. Also, keep your wage and salary records for a particular year.

NOTE: THESE ARE SUBSTITUTE W-2 AND W-3 STATEMENTS AND ARE ACCEPTABLE FOR FILING WITH YOUR FEDERAL, STATE AND LOCALITY INCOME TAX RETURNS.

This information is being furnished to the Internal Revenue Service. If you are required to file a tax return, a negligence penalty or other sanction may be imposed on you if this income is taxable and you fail to report it.

IMPORTANT NOTICE

In order to keep efficient processing, insist on this W-2 on your tax return like this following enquiry instructions:

Notice to Employee

Do you have to file? Refer to the Form 1040 instructions to determine if you are required to file a tax return. Even if you do not have to file a tax return, you may be eligible for a refund if box 2 shows an amount or if you are eligible for any credit.

Earned income credit (EIC). You may be able to take the EIC for 2013 if your adjusted gross income (AGI) is less than a certain amount. The amount of the credit is based on income and family size. Workers without children could qualify for a smaller credit. You and any qualifying children must have valid social security numbers (SSNs). You cannot take the EIC if your investment income is more than the specified amount for 2013 or if income is earned for services performed by you while you are a prisoner at a penal institution. For 2013 income limits and more information, visit www.irs.gov/eitc. Also see Pub. 596, Earned Income Credit. Any refund or money from your tax liability is refunded to you, but only if you file a tax return.

Clergy and religious workers. If you are not subject to social security and Medicare taxes, see Pub. 517, Social Security and Other Information for Members of the Clergy and Religious Workers.

Corrections. If your name, SSN, or address is incorrect, correct Copies B, C, and 2 and ask your employer to correct your employment record. Be sure to ask the employer to file Form W-2c, Corrected Wage and Tax Statement, with the Social Security Administration (SSA) to correct any name, SSN, or money amount error reported to the SSA on Form W-2. Be sure to get your copies of Form W-2c from your employer. Ask for corrections made so you may file them with your tax return. If your name and SSN are correct but are not the same as shown on your social security card, you should ask for a new card that displays your correct name as they SSA office or by calling 1-800-772-1213. You also may visit the SSA at www.socialsecurity.gov.

Cost of employer-sponsored health coverage (if such cost is provided by the employer). The reporting in box 12, using code DD, of the cost of employer-sponsored health coverage is for your information only. The amount reported with code DD is not taxable.

Credit for excess taxes. If you had more than one employer in 2013 and more than $7,049.40 in social security and/or Tier 1 railroad retirement (RRTA) taxes were withheld, you may be able to claim a credit for the excess against your federal income tax. If you had more than one railroad employer and more than $3,708.20 in Tier 2 RRTA tax was withheld, you also may be able to claim a credit. See your Form 1040 or Form 1040A instructions and Pub. 505, Tax Withholding and Estimated Tax.

Our Privacy Policy – Your Choices and Controls

We're happy to share details about the information we collect and how we use it. You have choices about how we use your information. Review a Policy summary at www.att.com/privacy, or the full Policy at www.att.com/privacypolicy/FAQ. Then check out your choices at www.att.com/yourchoices.

Equipment Return Policy

Items with proof of purchase that are like-new condition and include all accessories, manuals and original packaging can be returned within 14 days of purchase or activation (unless they're Closeout items). Yours will be charged a restocking fee of $35/$70, except where prohibited. See www.att.com/returns for details. Authorized Retailers and other locations may have different policies.

Cancellation Policy

You may terminate this Agreement within 14 days of activation without paying an ETF. Any activation fees will be refunded if you call within 14 days of activation. You'll be responsible for all fees and charges incurred through the date you cancel. Additionally, you must return any Equipment and accessories purchased with this Agreement. This is just too funny. all these people thinking that entering a comment will test their fax!! It's like a combined ignorance of faxing and blog'ing. No telephone number is involved!! But somehow – OUT THERE – the internet connects all things and so I know this will find it's way to my home fax machine! Yay!! It's kind of an endearing faith in technology – that unfortunately has a sad ending when the fax never arrives (. . . let down again ...

Wilderness Medicine Institute

AN INSTITUTE OF THE NATIONAL OUTDOOR LEADERSHIP SCHOOL

STUDENT AGREEMENT

(INCLUDING ASSUMPTION OF RISKS AND AGREEMENTS OF RELEASE AND INDEMNITY)

In consideration of the services of The Wilderness Medicine Institute of The National Outdoor Leadership School ("WMI") I joined by my parents or guardian if I am a minor as my sole of collective agree and acknowledge as follows.

ACTIVITIES AND RISKS

I understand that WMI courses teach wilderness first aid also known as wilderness medicine and are taught in classroom and outdoor settings The outdoor portions will occur during the day or at night in various types of env comments from grass lawns to rugged wilderness-like terrain and in weather conditions that include heat cold wind snow ra min or other conditions I acknowledge that the activities of the course have risks including certain risks which are inherent Inherent risks are those which cannot be eliminated without destroying the unique character of the activities The same elements that contribute to the unique character of these act vities can cause loss or damage to equipment accidental injury illness or in patients cases permanent trauma, disability or death. I understand that WMI cons ders it important for me to know in advance what to expect and to be informed of the activities' inherent risks The following descr bes some but not all of those risks

- WMI courses may occur in remote places They may occur on lands open to the public and exposed to the acts of persons not associated with WMI Communication and transportation may be difficult and evacuations and medical care may be significantly delayed
- WMI activities may be strenuous physically and emotionally
- Physical activities include running hiking repetitive lifting and carrying Certain activities will require travel by foot and other means over unimproved roads hiking trails and rugged off trail terrain including downed timber river crossings snow ice steep slopes, slippery rocks and other features These travel risks include falling drowning becoming lost and others usually associated with such travel in the environmental risks
- Environmental risks and hazards include drowning sleep and cold water muscle strokes animals, falling and rolling rock; lightning falling timber and unpredictable forces of nature including weather which may change to extreme conditions without notice. Possible injuries and illnesses include hypothermia frostb ite sunburn heatstroke, dehydration and other mild or serious conditions
- Students will participate in realistic simulated injury and illness scenarios and will at times act the role of patient being handled carried and otherwise treated as patients of a medical emergency in simulated situations. Students will also use and practice with various medical equipment The sing under close staff supervision may include the option of injecting and being injected by fellow students Risks associated with this training include being inadvertently stuck by a needle being dropped or otherwise mishandled while being carried unwelcome touching while acting the role of patient in a stressful and emotional distress in response to training scenarios
- WMI may require students to arrange their own transportation to locations away from the primary classroom from wh ch further activities will be conducted The travel is not supervised by WMI and includes the use of personal vehicles and/or carpooling in vehicles not owned or controlled in any way by WMI
- Equipment may fail or malfunction
- Decisions made by the instructors other staff (including volunteers), contractors and students will be based on a variety of perceptions and evaluations which by their nature are imprecise and subject to errors in judgment. Misjudgments may pertain to among other things a student's capabilities environment terrain water and weather conditions, natural hazards routes and medical conditions
- WMI students including minors, may have free time before during and after their course WMI has no responsibility for students during their free time before and after the course. WMI staff may from time to time provide assistance or even accompany students in those free time activ ties, but in doing so they are acting as private individuals, and WMI is not responsible for their conduct. Even during the course WMI cannot continually monitor the behav or and activ ties of students and students must accept responsib lity for themselves and others whether or not under the direct supervision of WMI staff
- WMI programs in foreign countries may be exposed to laws legal systems customs and behaviors animals diseases and infestations not common to the United States; in addition, these courses may be subject to dangerous road travel political unrest riots demonstrations banditry terrorism and other criminal conduct including drug related activities
- WMI may from time to time use the services of private contractors for certain tasks, including for example, transportation and food service WMI is not responsible for the acts or omissions of such contractors

I acknowledge that the staff of WMI has been available to more fully explain to me the nature and physical demands of my WMI course and the inherent risks hazards and dangers associated with this course.

GOD OUR FATHER,

This prayer is so powerful.
Pass this prayer to all your friends.

Senate vote. "I am deeply disappointed that the opposition comes from a female-dominated health care profession, at a time when we are experiencing attacks in public policy settings on women's health choices."

The beneficiaries of her bill would be poor women. Most live in rural areas or inner cities where doctors rarely venture, are between 18 and 29, and have no

The bill would allow registered nurses who work in licensed to dispense the contraceptives, so long they have training and operate under physicians' orders. Other unions representing nurses support the bill.

"It is our mission to increase access to birth control," said Kathy Kneer, the longtime head of in California. "We have something we know is safe. The issue is, how do we remove barriers to obtaining birth control?"

There are other examples of the nurses union taking odd stands. The union is fighting county public health officers over legislation that seeks to encourage nurses who work with patients to get

Last year, the union fought a bill permitting volunteer public school employees to administer a particular drug to epileptic children who are in the midst of life-threatening seizures. Union lobbyists argued unsuccessfully that nurses should administer the drug, though few schools can afford nurses.

Being an outlier is familiar territory for the. Most unions sided with President Barack Obama and advocated for the Affordable Care Act in 2009. The nurses union held out for more, Medicare for all, despite the lack of political support for the concept.

All unions struggle for market share. Some see political and social action as the way forward. The is pushing what it calls the Main Street Campaign, urging Congress to impose a tax on Wall Street transactions.

"We take on fights that are part of the greater public interest," said Chuck Idelson, the union's communication director.

A Wall Street tax will win congressional approval when Congress agrees to universal government-run health care.

With overall union membership shrinking by 10 percent a year, labor's clock is winding down – unless labor does something to change public attitudes. Dave Regan, head of the 150,000-member United Healthcare Workers in California, told me the other day.

He is striving to remake the union into one that defends its members and also "is about something affirmative." Working with the Brown administration, hospitals and others, the union has embarked on its Let's Get Healthy California campaign, an effort to fight diabetes and other costly chronic conditions among union members and the public.

The dismisses labor-management partnerships, as it goes off on its own. Its tactics have worked, some of the time. But a nurses' union that opposes allowing nurses to give to poor women should ask itself how long that run of good fortune will last.

Vanderbilt University
Graduate and Professional Student
Request for Termination of Health Insurance Coverage

Policy: For the 2016-2017 policy year Vanderbilt University will allow eligible Graduate and Professional students who graduate at the end of the Fall Semester to request a termination of coverage of the Student Health Insurance Plan. The request for termination of coverage must be received by December 31, 2016. No forms will be accepted after this date.

Eligibility Requirements

- Student must have completed all degree requirements. The school Registrar will be contacted by Student Health for proof of graduation.
- Student must not incur claims with a date of service after December 31, 2016
- If dependent(s) are covered under the student's policy, the dependent(s) must not incur claims with a date of service after December 31, 2016.

Procedure for Students

- Complete and submit this Request for Termination of Health Insurance Coverage no later than December 31, 2016 to the On-Campus Student Insurance Coordinator at the Vanderbilt University Student Health Center Zerfoss Building, or via fax to 615-343-0047
- If the request for termination is approved, coverage will end on December 31, 2016 and the spring premium charge of $1,532 will be removed from the Student's Account.

Procedure for Student Dependents

- If the student's termination request is approved, dependent coverage will also terminate as of December 31, 2016.
- If dependent premium was made by check, the premium return check will be sent to the address provided below
- Please be aware that the return for dependent premium may take up to 3 weeks to process if premium return is made by check
- If dependent premium was made via credit card, the premium return will be credited to the card used

Please Complete:

I understand that by requesting this termination of coverage of the Student Health Insurance Plan my coverage will terminate as of December 31, 2016. I also understand that if I have any dependents covered under my policy that their coverage will also terminate on December 31, 2016. I also understand that any claims for benefits with a date of service after December 31, 2016 will be cause for disapproving my request for termination and I will be responsible for payment of the Spring 2017 premium. I further understand that because I have requested this termination of coverage that I will not be able to re-enroll in the Student Health Insurance Plan at any time during the remainder of the policy year.

Hello

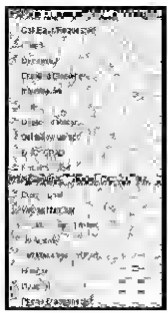
9. When a call is initiated in **PREVIEW** mode, a pop-up will be displayed prior to the call. In this window, you'll see the student's NAME, STUDENT ID, and PHONE NUMBER. This allows you the opportunity to copy the ID into Campus Vue to PREVIEW the notes.

10. If you are in a MANUAL DIAL campaign, the Vox will call a toll free 866 phone number to the student and then the Vox will disconnect. When connected, you will hear music. Refer to ID section, past the call on to the student. Once you physically have the student on the phone, click MAKE CALL and dial the 10 digit phone number (manually found in the preview window). (See the Manual Dial Guidelines handout for more details).

11. Once the call is over, you must **DISPOSITION** the call.



11. Choose the correct call. This will determine how the calls are recorded and how the requeuers will behave. These must be accurate.

12. At this point, you may enter a note in Campus Vue, if needed. You'll have up to 3 minutes to do this.

12. After choosing your code and leaving your note, click READY and be prepared for the next call.

Wireless Security Setup

Please keep for your records

Your new Wireless DSL Gateway is set to give you the ability to take full advantage of some of the newest technology available today. It is simple to use the wireless networking features built into your new Wireless DSL Gateway.

To connect your computer(s) to the Wireless Gateway you will need to refer to information located on the bottom of the Wireless Gateway.

Copy the WPA Protected Access (WPA) KEY and first SSID (Service Set Identifier) (ESSID) from the sticker on the bottom of the gateway. Note: It is not required for wireless security. The Wireless Gateway uses WPA2 encryption by default. To use the default setting, your wireless PC must be configured for WPA2 during setup.

CITY OF TROY, N Y. – SNOW EMERGENCY PLAN

Residents should familiarize themselves with the ***SNOW EMERGENCY PLAN*** *parking restrictions and regulations contained in this information brochure*

- When conditions warrant the Mayor will declare a **SNOW EMERGENCY** which will begin at either 8am or 8pm and will be in effect on **DESIGNATED SNOW EMERGENCY STREETS ONLY**
- All radio and television stations will be advised and will announce that the city of Troy **SNOW EMERGENCY** is in effect at either 8am or 8pm.
- This announcement will give residents enough time to move vehicles in accordance with emergency postings – approximately 8 to 10hours.
- Normal parking rules and regulations are temporarily suspended on **DESIGNATED SNOW EMERGENCY STREETS ONLY**.
- During the first 24 hours of the **SNOW EMERGENCY, PARKING ON THE ODD NUMBERED SIDE OF THE DESIGNATED STREET IS PROHIBITED!** Vehicles in violation will be ticketed and towed. **North and East side of city streets will be considered the odd side.**
- Crews will proceed with snow plowing operations on the **ODD NUMBERED** side of the street for the first 24 hours Vehicles in violation will be ticketed and towed
- Crews will then proceed with snow plowing operations on the **EVEN NUMBERED** side of the street for the second 24 hours. **South and West side of city streets will be considered the even side.**
- After 48 hours have passed from the initial **SNOW EMERGENCY** time designation, the emergency will be officially over unless circumstances warrant additional time.
- **CENTRAL BUSINESS DISTRICT** parking restrictions remain in effect as currently posted unless otherwise notified
- Residents with driveways are requested to **park their vehicles in their driveway** during a declared **SNOW EMERGENCY**
- **Regular garbage** should not be placed in the right of way during a declared **SNOW EMERGENCY**. **Recycling collection** will be suspended during the declared **SNOW EMERGENCY**.

PROPANE SAFETY NOTICE

For your safety, propane has an odor added so you can detect leaks. You and each person using or handling propane in your household must know the smell of propane. Ask for a propane smell brochure or MSDS to demonstrate the odor. If anyone is unable to recognize the odor of propane, call us immediately.

Propane is heavier than air therefore, leaks will initially refer to settle in low or ground check. To check for propane, carefully smell in low spots.

Under **smell** of the following conditions, you may not be able to smell a gas leak. For example:

- Age, colds, allergies, sinus congestion or the use of tobacco, alcohol, or drugs may diminish your sense of smell.
- Chewing or other strong smell may cover up the smell of gas.
- In certain circumstances, propane gas may lose its distinctive odor - this is called **"ODORANT FADE."**
- Sometimes propane gas can lose its distinctive odor if a leak occurs underground or if there is rust on the inside of the cylinder or piping.
- Some people are physically unable to detect the smell of gas. If you are one of these people, call us immediately.

For these reasons, it is recommended that you purchase and install propane gas detector(s) according to the manufacturer's instructions as a backup warning device. If anyone using or handling propane is unable to recognize the odor of propane, you should not use it until you have purchased and installed gas detector(s).

WHAT TO DO IF YOU SMELL GAS...

1. Put out all smoking materials and other open flames.
2. DO NOT operate a light switch, telephone, cigarette lighter appliance or thermostat. Any spark in the area where propane gas is present may ignite the gas.
3. Get everyone out of the building immediately.
4. Shut off the gas supply at the tank or cylinder **(See Diagram)** →
5. Call Osterman -use your neighbor's telephone if gas odor is in the building.
6. Have your Osterman service person detect and repair the leak. Have your Osterman service person air out the area and check and re-light your gas appliances. Do not return to the building until you are advised that all leaks have been repaired and it is safe to return.

IMPORTANT TERMS - NET 10 DAYS. 1 1/2% interest per month will be charged on invoices 30 days past due.

Our Father, which art in heaven,
hallowed be thy name,
thy kingdom come,
thy will be done,
on earth as it is in heaven
Give us this day our daily bread
And forgive us our trespasses,
as we forgive them that trespass against us
And lead us not into temptation,
but deliver us from evil
[For thine is the kingdom,
the power, and the glory,

DID YOU KNOW?

Public schools have financial incentive to diagnose your children with ADHD and ADD

In 1991, eligibility rules for federal education grants were changed to provide schools with $400 in annual grant money for each child diagnosed with ADHD As a result, the number of ADHD cases soared.

Today more than 7,000,000 children have been labeled and registered as permanent patients of the school system. Ten to twelve percent of all boys between the ages of 5 and 14 in the United States have been diagnosed as having ADHD.

Hello?

Anybody there?

Hello?

The Biker's Dog

A highly timid little man, ventured into a biker bar in the Bronx and clearing his throat asked, "Um, err, which of you gentlemen owns the Doberman tied outside to the parking meter?"

A giant of a man, wearing biker leathers, his body hair growing out through the seams, turned slowly on his stool, looked down at the quivering little man and said, "It's my dog. Why?"

"Well," squeaked the little man, obviously very nervous, "I believe my dog just killed it, sir."

"What?" roared the big man in disbelief. "What kind of dog do you have?"

"Sir," answered the little man, "it's a little four week old female puppy."

"BULL!" roared the biker. "How could your puppy kill my Doberman?"

"It appears that your dog choked on her, sir."

19. CREDIT UNION LIABILITY. If we do not properly complete a transaction according to the agreement, we will be liable for your losses or damages only to the extent required by applicable law or regulation, except as it may be modified by our Membership and Account Agreement. You will not be liable for any losses or damages resulting from our failure to complete a transaction if: (a) you do not have enough money in your account to make the transaction, or if the transaction would exceed the credit limit on any line of credit you have with us; (b) the transaction would cause you to exceed the limit on your overdraft protection plan; (c) circumstances beyond our control (such as fire or flood) prevent the transaction, despite reasonable precautions that we have taken; (d) the terminal or system you were using was not working properly and you knew about the problem when you started the transaction; or (e) your account is subject to a pledge or other encumbrance, or a court order or other legal process prevents us from making a withdrawal or payment. There may be other exceptions stated in our agreement with you. In no event will we be liable to you for special or consequential damages, including lost profits, with respect to any account or transaction governed by this Agreement.

20. CHECKS OR DRAFTS PRESENTED FOR PAYMENT IN PERSON. If a person who is not a joint owner on your account presents a check or draft payable to you, we may require reasonable identification before we cash the check or draft. We may refuse to cash the check or draft, and we may require that the check or draft be deposited to your account. We may also require that the check or draft be certified before we cash it.

21. STOP PAYMENT ORDERS. Your right to direct us to stop payment of a check or draft is governed by applicable law and by our Membership and Account Agreement. You may order us to stop payment of any check or draft drawn on your account, whether you sign the check or draft or not, if you have a right to withdraw funds from the account. You must notify us before we have paid the check or draft. You must give us enough information so that we can identify the check or draft, including the account number, the check or draft number, and the exact amount of the check or draft. If you call us with this information, we may accept your oral stop payment order. However, we may require you to confirm your stop payment order in writing. If you do not confirm your stop payment order in writing within 14 days after you call us, we may remove the stop payment order from our records. If you have given us a stop payment order and you later change your mind, you must notify us in writing before we pay the check or draft. We must receive your written notice in time to give us a reasonable opportunity to act on it before our normal cutoff time for checking your account or before we become legally obligated to pay the check or draft, whichever occurs first. If you fail to notify us in time, or if you fail to provide us with complete and correct information, we will not be responsible for our failure to stop payment. We may charge you a fee for each stop payment order you give us, even if the order expires or is removed automatically after 14 days.

22. LOST OR STOLEN CHECKS OR DRAFTS. You must notify us immediately if you lose any checks or drafts drawn on your account or if you believe that checks or drafts have been stolen or that unauthorized checks or drafts have been drawn on your account. If you do not notify us immediately, you may not get your money back if we pay the checks or drafts in good faith before we receive your notice. If you notify us in time, we will not require you to pay for checks or drafts that were paid after the checks or drafts were lost or stolen. We may require you to change the numbers on your account or to close your account and open a new account.

23. STALE-DATED AND POST-DATED CHECKS OR DRAFTS. We may pay checks or drafts that are presented more than six months after the date on them, without contacting you. We may choose not to pay stale-dated or post-dated checks or drafts drawn on your account, and we will not be liable to you if we do not pay them.

24. PAYMENT ORDER OF ITEMS. If there is not enough money in your account to pay all of the checks, drafts, and other items that are presented on a given day, we will decide in our discretion which checks, drafts, and other items to pay. We may honor checks, drafts, and other items in the order we choose, which may affect the total amount of overdraft or returned item fees you incur. We encourage you to write checks and issue other payment orders in the order in which you intend to have them paid.

25. OVERDRAFTS. You should keep enough money in your account to cover the checks, drafts, and other items you write and the other withdrawals you make. If you do not have enough money in your account to cover what you withdraw, you have an overdraft. We may pay or return overdrafts at our discretion, unless we have agreed with you in writing to pay overdrafts. If we pay an overdraft, you must repay us immediately. We may charge a fee for each overdraft we pay. We may also charge a fee for each overdraft we return. We may charge these fees even if your account is overdrawn by only a small amount. We may charge these fees even if your account is overdrawn for only a short time. We may charge these fees even if you did not write the check, draft, or other item that caused the overdraft, for example if you did not make the withdrawal or if you only received the benefit of the check, draft, or other item. We may charge these fees even if you would not have been charged a fee if we had made a different decision about whether to pay

READ IT

This children's Bible story is

Baby Moses

Exodus 2:1-10

God works through all kinds of people!

Ask each other what you remember about.

- Fear
- Slaves
- Hebrew boys
- Pharaoh's daughter
- Miriam
- Baby Moses

In Exodus, God works through a number of different women. The midwives refuse to throw the boy babies in the Nile as Pharaoh had ordered. Moses' mother hides him and then sets him afloat down the river. The Pharaoh's daughter takes the baby in, and Moses' sister Miriam helps make sure that Moses' biological mother gets to care for him!

Read the whole story together in the Bible!

Spark Story Bible pages 66–71

Spark Bible pages 60–61

Family Prayer

Thank you, God for working through so many different kinds of people. Help us to hear your call to work with you wherever we are in your world. AMEN

TALK ABOUT IT

Family Conversations

1. What materials would you use to make a floating basket?
2. Who have you seen God work through to do good in the world?
3. What does it mean to be brave in God's eyes?
4. Look at baby pictures of people in your family. Thank God for all the people who helped raise those babies. Think about how God might use each of these babies to fulfill God's plans, no matter how old they are.

Eye Spark

When you see a baby remember this story about Baby Moses!

Ear Spark

When you hear a baby cry, think of how hard it must have been for Moses' mother to keep him hidden.

LIVE IT

For families to do together

Collect some baby-care supplies to donate to your local foodshelf or crisis nursery. What kinds of things do babies need? If parents or caregivers are struggling financially, what types of supplies might be harder for them to purchase?

For younger kids

Fill up your sink with water and see what kinds of things will float!

For older kids

Research the designs of things that float, like boats, barges, and canoes. What design elements are important for something to float well and be stable in the water? Design and build your own very cool flotation device!

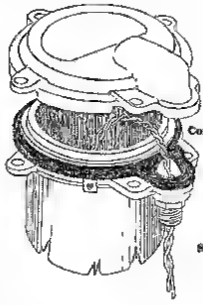
Watertight Artesian Cap, Installation Instructions



1. Install flange on casing. Do not tighten set screws at this time.
2. Install neoprene gasket on casing. Small end of oblong hole should align with vent screen.
3. Place compression ring on top of casing, flange side down.
4. Run pump leads through lower flange and liquid tight connector.
5. Use a sealant inside neoprene bushing to help seal pump leads. Tighten connector
6. Place well cap on top of compression ring. Compression ring should be seated on top of casing and the well cap should be seated on top of the compression ring.
7. Install the five bolts through the cap and flange being sure the gasket is aligned with the cap. Tighten the bolts progressively in a circular pattern. Do not overtighten the bolts and bend the bolt ears.
8. Tighten the four set screws. If this installation is on a plastic casing, be careful not to deform the casing with the set screws.

Thanks!

WHAT IS PROPANE?

Propane (also called LPG-Liquefied Petroleum Gas or LP-Gas) is a liquid fuel stored under pressure. In most systems, propane is vaporized to a gas before it leaves the tank. Propane is highly flammable when mixed with air (oxygen) and can be ignited by many sources, including open flames, smoking materials, electrical sparks, and static electricity. Severe "freeze burn" or frostbite can result if propane liquid comes in contact with your skin.

IF YOU SMELL, HEAR OR SEE GAS

1. **NO FLAMES OR SPARKS!** Immediately put out all smoking materials and other open flames. Do not operate lights, appliances, telephones, or cell phones. Flames or sparks from these sources can trigger an explosion or fire.
2. **LEAVE THE AREA IMMEDIATELY!** Get everyone out of the building or area where you suspect gas is leaking.
3. **SHUT OFF THE GAS.** Turn off the main gas supply valve on your propane tank if it is safe to do so. To close the valve, turn it to the right (clockwise).
4. **REPORT THE LEAK.** From a neighbor's home or other nearby building away from the gas leak, call your propane retailer right away. If you can't reach your propane retailer, call 911 or your local fire department.
5. **DO NOT RETURN TO THE BUILDING OR AREA** until your propane retailer determines that it is safe to do so.
6. **GET YOUR SYSTEM CHECKED.** Before you attempt to use any of your propane appliances, your propane retailer or a qualified service technician must check your entire system to ensure it is leak free.

CAN YOU SMELL IT?

Propane smells like rotten eggs, a skunk's spray, or a dead animal. Some people may have difficulty smelling propane due to their age (older people have a less sensitive sense of smell), a medical condition or the effects of medication, alcohol, tobacco or drugs. Consider purchasing a propane gas detector as an added measure of security.

ODOR FADE is an unintended reduction in the concentration of the odor of propane, making it more difficult to smell. Although rare, several situations can cause odor fade:

- The presence of air, water, or rust in a propane tank or cylinder
- The passage of leaking propane through soil
- The exposure to building materials: masonry or fabrics

Since there is a possibility of odor fade or problems with your sense of smell, you should respond immediately to even a faint odor of gas.

To learn what propane smells like: Customers unfamiliar with that smell should call Suburban's Safety Information Request Center 1-888-223-0629 and order the pamphlets called "Important Propane Safety Information for You and Your Family" and/or an expansive "Propane Safety" booklet to obtain a Scratch and Sniff Test, free of charge. Pamphlets can also be purchased through Propane Education & Research Council (PERC) at 1-866-905-1076 or www.propanecatalog.com

Edge of Na Pali

Niviek

You're back on the planet. Looking up as the shuttle pulls away above, you suddenly feel very alone. Check your inventory - no Combat Assault Rifle as promised - but you do have the self-recharging **Marine SCUBA Gear**, a Dispersion Pistol and a Universal Translator.

You start on a raised platform in a tall bay built out of materials resembling those you saw in the Skaar mining bunkers back at Nyleve's Falls when you first landed on this planet. Look around.

To the left, a box top jumpable to from this platform carries a **Clip**, and to the right a similar box top carries two **Flares**. Wooden crates on the floor behind the starting position reveal a **Clip**. Collect the gear, then go out through a double door which was ahead as you started. Beyond the door, a short corridor leads into another room where a wooden crate reveals a **Clip**. You can go behind a box on the left for a useful **Flashlight** as well. Then, look around: there are two exits ahead in the form of sets of double doors. Go through the left doors into a small closed chamber where wooden crates reveal a **Flare** and you can collect an **Automag** from on top of a small table. This room also contains a rickety window through to the corridor beyond the right-hand exit from the previous room. Shoot the window to pieces and hop through to gain access to the corridor. Be fun way. Within the corridor, go and read the red sign on the far wall to find out where you are...It beeps a **Universal Translator** message:

"Terra-Emi Mining Bunker"

Go to the left and round the corner. Two **Bandages** lie beyond the next box on the right as you do so. As you turn the corner, you will see that the bunker leads outside towards a Nali Hut, and as you approach the exit, some UMS logistics drop boxes outside the bunker collapse to reveal some gear. Go outside to collect your first shipment of stuff from the military: you will find a 50 bullet **CAR Clip** (Combat Assault Rifle ammo) and a useful **Combat Assault Rifle**. Then, go round the front of the Nali hut to see where you are. Mind the Nali Rabbit as you go around the front of the house, then step into the hut and prepare to meet your first opposition in the form of a Tentacle attached to the ceiling. In the hut, a wooden crate on the table can be shot open for a **Health Pack**. Leave the hut, noting as you go the entrance to a base ahead to the left, then veer off towards the cliff on the right. Go along the cliff and you will find a pool: dive into the pool and have a swim. A human corpse has a **Clip** nearby and also a log:

"LOG: W. Marshall. Hiked through the mountains and making good time. Should make it to Dahlgren's coordinates in a few hours. Finally found some water. Thought I was going to die of thirst."

When you have collected the **Clip**, climb out of the pool at the end where the bank is shallow. Notice how your Marine SCUBA Gear recharges. Then, go round the back of the large rock on the left and approach the base entrance. As you pass a palm tree, you should notice a LesserBrute on guard. Take it by surprise with secondary fire of your Combat

Please Return my
Fax - don't taking it.
Thanks.

The fair one, for fulfilment to the end
Of things these signs portend—
Which partly smile, indeed, but partly scowl—
The phantasms of the fowl.
I call Ieios Fauan to avert
She work the Danaoi hurt
By any thwarting waftures, long and fast
Holdings from sail of ships
And sacrifice, another than the last,
She for herself precipitate—
Something unlawful, feast for no mans lips,
Builder of quarrels, with the House cognate—
Having in awe no husband, for remains
A frightful, backward-darting in the path,
Wily house-keeping chronicler of wrath,
That has to punish that old children s fate!"
Such things did Kalchas,—with abundant gains
As well,—vociferate,
Predictions from the birds, in journeying,
Above the abode of either king
With these, symphonious, sing—
Ah, Linos say—ah, Linos, song of wail!
But may the good prevail!
Zeus, whosoe'er he be,—if that express
Aught dear to him on whom I call—
So do I him address
I cannot liken out, by all
Admeasurement of powers,
Any but Zeus for refuge at such hours,
If veritably needs I must
From off my soul its vague care-burden thrust
Not—whosoever was the great of yore,
Bursting to bloom with bravery all round—
Is in our mouths he was, but is no more
And who it was that after came to be,
Met the thrice-throwing wrestler,—he
Is also gone to ground
But Zeus"—if any, heart and soul that name—
Shouting the triumph-praise—proclaim,
Complete in judgment shall that man be found.

Figure 3 Stock Front Fork

⚠WARNING

Wear safety glasses or goggles when servicing fork assembly. Do not remove slider tube caps without relieving spring preload or caps and springs can fly out, which could result in death or serious injury. (00297a)

NOTE

See Figure 3 for Steps 2 through 10.

2. Carefully remove fork tube plug (4) and o-ring (5) and remove spring (6) from the slider tube.
3. Place a drain pan under fork and remove drain screw and washer (19).
4. Remove dust cover (12). Compress retaining ring (13) and remove the clip from the internal groove at the top of the fork slider.
5. Remove socket screw and washer (20) from the bottom of fork slider (18).

NOTE

To overcome any resistance, use the fork tube as a slide hammer that is, first push fork tube into fork slider and then pull it outward with a moderate amount of force. Repeat this sequence until fork tube separates from fork slider.

6. Withdraw slider tube (10) from slider (18) until lower bushing (1) on slider tube contacts upper bushing (16) in the slider. Use lower bushing in a slide hammer motion to gently tap out of seal (14) washer (15) and upper bushing (16) from slider bore.
7. Remove lower stop (17). The lower stop will be found within the slider or on the bottom end of the damper tube (8).
8. Insert a small diameter rod through the opening in the bottom of the slider tube to remove damper tube assembly (8) and spring (9).
9. Refer to the appropriate Service Manual for front fork ironing and inspection procedure. Replace parts as necessary.
10. Repeat Steps 1 through 9 for the opposite fork.

INSTALLATION

Fork Assembly

The fork sliders included in this kit install in a similar manner as the original equipment parts. Refer to the Service Manual for proper installation procedures.

NOTE

Prior to installation of this kit, check the bores of the new chrome sliders to be certain they are free of dirt and debris or damage to the new sliders may occur.

NOTE

See Figure 4 for Steps 1 through 17 unless otherwise stated.

Dear Andrew Zippan,

Congratulations on the purchase of your new home! Moving into a home can be a very exciting time, but there can also be a lot of questions about the reliability of your home's heating system. That's where Direct Energy can help. For a limited time, we are offering you the Heating Protection Plan* for only $10.99/month for the first year. That's a **20% savings and equivalent to 2 Months FREE coverage!**

During these uncertain economic times it's important to protect the investment you've made in one of your home's most essential systems – your furnace. A breakdown always happens when you least expect it and can be very costly. A faulty ventor motor replacement alone can cost an average of $797** which would be covered by your plan.

Don't risk your comfort this winter – keep warm and comfortable with the Heating Protection Plan. While we are happy to provide this great offer – we're only able to do so until **October 30th, 2010.** You may contact us at **1-866-633-1178 (toll free).**

Enjoy every moment in your new home. Let us help safeguard your comfort by protecting your house's heating system – at the most important time – at the best price.

Heating Protection Plan

At the best price ever!

For only $10.99/month*
you'll receive

Heating Protection
- 365 day protection on parts and labour for your furnace
- Priority service during peak periods**
- 24/7 Support Centre to take your calls

*For only $3.00/mth more*** receive:*

Annual Heating Maintenance
- Up to 21 point diagnostic checks
- Help extend lifespan and peak performance of your equipment
- Help reduce energy bills

GIVE US FEEDBACK

Creating Custom Cisco IP Phone Rings

Cisco IP Phones ship with two default ring types that are implemented in hardware: Chirp1 and Chirp2. Cisco CallManager also provides a default set of additional object ring sounds that are implemented in software as pulse code modulations (PCM) files. The PCM files, along with an XML file (named RingList.xml) that describes the ring list options available at your site and installed in the TFTP directory on each Cisco CallManager server.

This appendix describes how you can customize the object ring types available at your site by creating your own PCM files and editing the RingList.xml file. The following topics are covered:

- Creating a Custom Phone Ring
- RingList.xml File Format
- PCM File Requirements for Custom Ring Types

Note The procedure described here only applies to creating custom object rings for the Cisco IP Phone 7940 and 7960 models.

Creating a Custom Phone Ring

Use the following procedure to create a custom object ring.

Procedure

Step 1 Create a PCM file for each custom ring (one ring per file). The PCM files must comply with the format guidelines listed in the "PCM File Requirements for Custom Ring Types" section.

Step 2 Use an ASCII editor to edit the RingList.xml file. Refer to the "RingList.xml File Format" section for information about how to format this file along with a custom RingList.xml file.

Step 3 Save your modifications and close the RingList.xml file.

Step 4 Place the new PCM file you created in the C:\Program Files\Cisco\TFTPPath directory on the Cisco TFTP server for each Cisco CallManager in your cluster.

RingList.xml File Format

The RingList.xml file defines an XML object that contains a list of object ring types. Each ring type contains a pointer to the PCM file used for that ring type and the text that will be displayed in the Ring Type menu on a Cisco IP Phone for that ring. This file is located in the C:\Program Files\Cisco\TFTPPath directory of the Cisco TFTP server for each Cisco CallManager.

The CiscoIPPhoneRingList XML object uses the following simple tag set to describe the information:

```
<CiscoIPPhoneRingList>
  <Ring>
    <DisplayName/>
    <FileName/>
  </Ring>
</CiscoIPPhoneRingList>
```

ASSEMBLY INSTRUCTIONS (BED FRAME)

MODEL MOD_5043

Read instructions carefully. See furniture and hardware part list on the right for guidance
Have all parts ready before assembly. Place all wooden furniture parts on a clean and flat soft surface to prevent scratch ng
Before you start, here are some words of caution

1 Do not FULLY TIGHTEN nuts and bolts until all nuts and bolts are partially tightened.
2 Do not FULLY TIGHTEN nuts and bolts to avoid causing damage to the threading.
3 Keep all hardware parts out of reach of children

NOTE: THE LIST AND QUANTITY SHOWN ARE FOR 1 UNIT ASSEMBLY

FURNITURE PART LIST

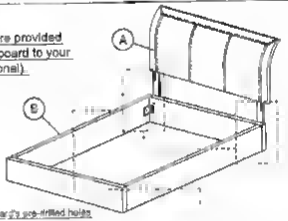
ITEM	DESCRIPTION	QTY
A	HEADBOARD	1 PC
B	BED FRAME	1 PC

HARDWARE PART LIST

ITEM	DESCRIPTION	QTY
1	[illegible]	4 PCS
2	[illegible]	4 PCS
3	M8 FLAT WASHER	8 PCS
4	M8 SPRING WASHER	4 PCS
5	M6 HEX NUT	4 PCS
6	M4 ALLEN KEY	1 PC

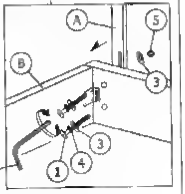
STEP 1

Note: Extra screws were provided for attaching the headboard to your bed frame (use is optional)



1. Line up the bed frame bolt's pre-drilled holes to match those of the headboard.

2. Secure the headboard to the bed frame by using 2x JCBE bolt 50mm (1) for the thicker bed frame, and 2x JCBE bolt 35mm (2) for the thinner bed frame. Before inserting each bolt, place a M8 spring washer (4) and M8 flat washer (3) on each bolt. Then fit a M8 flat washer (3) on the screw as it protrudes through the other side of the bed frame.



3. Place a M6 Hex Nut (5) after the M8 flat washer (3) at the end of each screw. Then tighten by using the M4 Allen key (6).

4) Repeat the same procedure for each screw and each side of the bed frame.

Under penalties of perjury, I declare that I have examined a copy of my electronic individual income tax return and accompanying schedules and statements for the tax year ending December 31, 2017 and to the best of my knowledge and belief, it is true, correct, and accurately lists all amounts and sources of income I received during the tax year. I further declare that the amount in Part I above is the amount from my electronic income tax return. I consent to allow my intermediate service providers, transmitter, or electronic return originator (ERO) to send my return to the IRS and to receive from the IRS (a) an acknowledgement of receipt or reason for rejection of the transmission, (b) the reason for any delay in processing the return or refund, and (c) the date of any refund. If applicable, I authorize the U.S. Treasury and its designated Financial Agent to initiate an ACH electronic funds withdrawal (direct debit) entry to the financial institution account indicated in the tax preparation software for payment of my federal taxes owed on this return and/or a payment of estimated tax, and the financial institution to debit the entry to this account. This authorization is to remain in full force and effect until I notify the U.S. Treasury Financial Agent to terminate the authorization. To revoke (cancel) a payment, I must contact the U.S. Treasury Financial Agent at 1-888-353-4537. Payment cancellation requests must be processed no later than 2 business days prior to the payment (settlement) date. I also authorize the financial institutions involved in the processing of the electronic payment of taxes to receive confidential information necessary to answer inquiries and resolve issues related to the payment. I further acknowledge that the personal identification number (PIN) below is my signature for my electronic income tax return and, if applicable, my Electronic Funds Withdrawal consent.

2012-2013 Arena Programs

October 1 2012 - March 31, 2013

A wide variety of skating programs exist at Haldimand County's four arenas, providing residents with many options to keep physically active while promoting healthy lifestyles within our community.

Take time to become physically active and enjoy your recreation facilities.

For the Sake of Sport

Patrons are expected to behave in an acceptable manner as detailed in the "For the Sake of Sport" policy located on the Haldimand County website.

Arena Program Rules

- All patrons who participate in the Haldimand County arena programs must respect the rules outlined for each program. Rules are developed from the Ontario Recreation Facilities Association Inc.'s Public Skating Guidelines, September 2003.
- Wearable rules for each activity are posted at the arena.
- Helmets are required and are mandatory for all participants in any skating or hockey program.

RENTALS

For pricing on rentals, the rule applicable to ice activity will be enforced.

ping [-LRUbdfhnqrvVaAD] [-c count] [-i interval] [-I interface] [-p pattern] [-Q tos] [-s packetsize] [-S sndbuf] [-t ttl] [-w deadline] [-W timeout] [hop ...] destination

Description

ping uses the ICMP protocol's mandatory ECHO_REQUEST datagram to elicit an ICMP ECHO_RESPONSE from a host or gateway. ECHO_REQUEST datagrams ("pings") have an IP and ICMP header, address by a struct timeval and then an arbitrary number of "pad" bytes used to fill out the packet.

Options

-a

Audible ping.

-A

Adaptive ping. Interpacket interval adapted to round-trip time, so that effectively not more than one (or more, if preload is set) unanswered packet's in the network. Minimal interval is 200msec for not super-user. On networks with low rtt this mode is essentially equivalent to flood mode.

-b

Allow pinging a broadcast address.

-B

Do not allow ping to change source address of probes. The address is taken to one selected when ping come.

-c count

Stop after sending number ECHO_REQUEST packets. With interval option, ping waits for count ECHO_REPLY packets, until the interval expires.

-d

Set the SO_DEBUG option on the socket being used. Essentially, the socket option is not used by Linux kernel.

-f flood ping

Outputs and set 20 bit flow label on echo request packets. (Only ping6). If value is zero, kernel allocates random flow label.

-f

Flood ping. For every ECHO_REQUEST sent a period "." is printed, while for every ECHO_REPLY received a backspace is printed. This provides a rapid display of how many packets are being dropped. If interval is not given, it sets interval to zero and outputs packets as fast as they come back or one hundred times per second, whichever is more. Only the super-user may use this option with zero interval.

-i interval

Wait interval seconds between sending each packet. The default is to wait for one second between each packet normally, or not to wait in flood mode. Only super-user may set interval to values less 0.2 seconds.

-I interface address

Set source address to specified interface address. Argument may be address IP address or name of device. When pinging IPv6 link-local address this option is interface.

-l preload

If preload is specified, ping sends that many packets not waiting for reply. Only the super-user may select preload more than 3.

-L

Suppress loopback of multicast packets. This flag only packet if the ping destination is a multicast address.

-n

Numeric output only. No packets will be there to lookup interface names for host addresses.

-p pattern

You may specify up to 16 "pad" bytes to fill out the packet you send. This is useful for diagnosing data-dependent problems in a network. For example, -p ff will cause the sent packets to be filled with all ones.

-Q tos

Set Quality of Service -related bits in ICMP datagrams. tos can be either decimal or hex number. Traditionally (RFC1349), these have been interpreted as IP TOS (formerly being redefined as congestion control) -4 as Type of Service and 5-7 for Precedence. Possible settings for Type of Service are: minimal-cost (=02, possibly 0x04, throughput (=08, low-delay (=10. Multiple TOS bits should not be set simultaneously. Interface precedence for optional Precedences range from priority (=20) to net control (=e0). You must be root (CAP_NET_ADMIN capability) to use Critical or higher precedence value. You cannot set bit in ECN (=01) unless ECN has been address in the kernel. In RFC2474, these fields has been redefined as 8-bit Differentiated Services (DS) consisting of: bits 0-1 of redefined octet (ECN will be used, here), and bits 2-7 of Differentiated Services Codepoint (DSCP).

-q

Quiet output. Nothing is displayed except the summary lines at startup time and when packets.

-R

Record route. Includes the RECORD_ROUTE option in the ECHO_REQUEST packet and displays the route options. Many systems. Note that the IP header is only large enough for nine such routes. Many it is ignore or discard this option.

-r

Bypass the normal routing tables and send directly to a host on an link-layer interface. If the host is not to a directly-attached network, an error is returned. This option can be used to ping a local host/gateway an interface that has no route through it (e.g., after the option -I is also used.

-s packetsize

Specifies the number of data octets to be sent. The default is 56, which translates into 64 ICMP data bytes when broadcast with the 8 octets of ICMP header data.

-S sockbuf

Set socket sndbuf. If not specified, it is address to. These not more than one packet.

-t ttl

Set the IP Time to Live.

-T timestamp option

Set special IP timestamp options. timestamp option may be tsonly (only timestamps), tsandaddr (timestamps and addresses) or tsprespec host1 [host2 [host3 [host4]]] (timestamp prespecified hops).

-M hint

Select Path MTU Discovery address. hint may be either do (prohibit fragmentation even local one), want (do PMTU discovery, fragment locally when packet size is large), or dont (do not set "IP flag).

-U

Print full user-to-user latency (the old behaviour). Normally ping prints packet round trip time, which can be address f.e. due to DNS lookups.

-v

Verbose output.

-V

Show version and exit.

-w milliseconds

Specify a timeout, in milliseconds before ping exits regardless of how many packets have been sent or received. In this case ping does not stop after count packet are sent, it waits either for specified expire or until count probes are transmitted or for some error notification from network.

Assembly Instructions

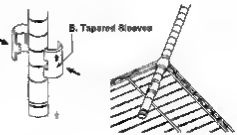
No tools required for assembly

Parts List
A (3) Shelves
B (24) Tapered Sleeves
(2) Spare Plastic Tapered Sleeves
C (4) Bottom Poles with Levelers Pre-Installed
D (4) Top Poles with Pole Connector & Caps Pre-Installed

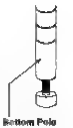
ASSEMBLY INSTRUCTIONS **Estimated Assembly Time: Approximately 20 minutes**

1 **Post Assembly**
Screw the two post sections together. Hand tighten
Note: the top section has pole connector & cap. The bottom section has levelers

2. **Bottom Shelf Assembly**
a. Locate the desired position of the bottom shelf
Note: Bottom shelf should be no more than six inches from the floor
b. Place two tapered sleeves into appropriate groove on each pole. Ensure tapered end is up (see arrow on sleeve)
c. Place shelf on to pole and slide each pole with tapered locks through the bottom of the shelf until snug
d. After all poles are in place, position the unit in the upright position
e. Push down on each corner of the shelf, ensuring the shelf is in a fully locked position



3. **Additional Shelf Assembly**
a. Locate the desired position of the next lowest shelf and insert the tapered sleeves on to the poles
b. Slide the shelf down from the top of the poles and onto the tapered locks. Push down on each shelf corner ensuring the shelf is in a fully locked position
c. Repeat for the remaining shelves.



4 **Leveler Adjustment**
a. Move assembled unit to the desired room location
b. If required, adjust levelers to ensure the unit is level. Rotating the levelers counter-clockwise raises the poles

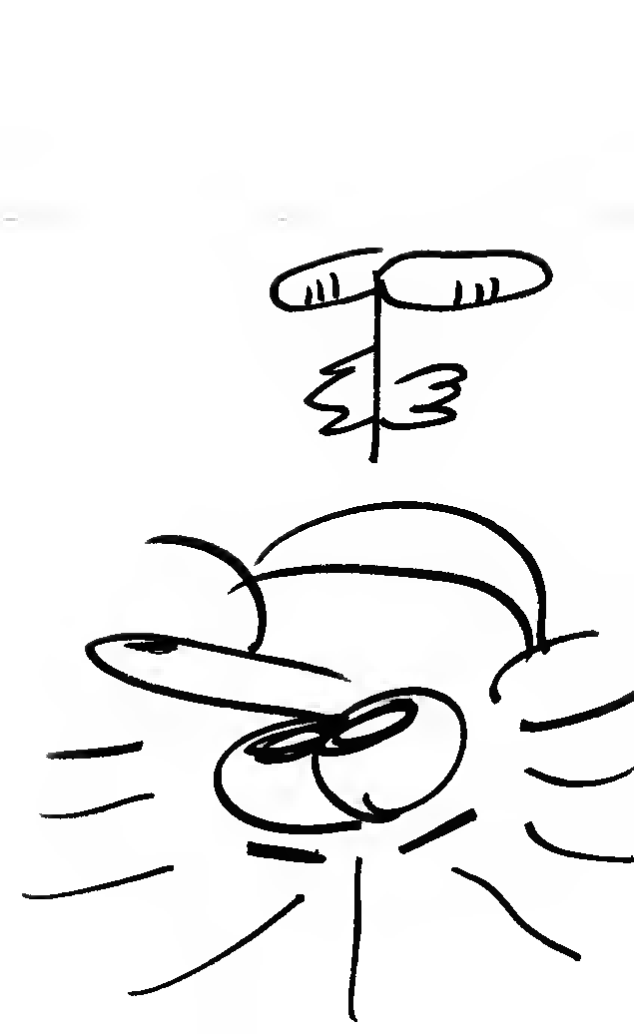
Hi!!!



HP Customer Support

HP Fax Products - Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below:

NOTE

Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE:

Whenever troubleshooting a fax issue, it is good practice to set the **Automatic Reports** option to **Every Error** before attempting a test fax. This way, even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products; consult the product User's Guide for specific steps.

1. Send a one page black and white test fax to **1-888-hpfaxtest** (1-888-473-2983)
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming test we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE:

The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Bishop of Trenton

The Argument

A Greek and Italian were arguing over who had the superior culture.

The Greek says, "We have the Parthenon."

Arching his eyebrows, the Italian replies, "We have the Coliseum."

The Greek retorts, "We Greeks gave birth to advanced mathematics"

The Italian, nodding agreement, says, "But we built the Roman Empire."

And so on and so on until the Greek comes up with what he thinks will end the discussion.

With a flourish of finality he says, "We invented sex!"

The Italian replies, "That is true, but it was the Italians who introduced it to women."

(L) *Child's Personal Information*

SURNAME AND GIVEN NAMES TO APPEAR IN PASSPORT

Write the child's name as you want it to appear in the passport. If the name is different from the name on the child's documentary evidence of citizenship, one of the following documents will be required to confirm the legal change of name:

- Legal change of name order; or
- Adoption order; or
- Birth certificate – citizenship certificate issued in the new name

SURNAME (LAST NAME) AT BIRTH/FORMER SURNAME (FORMER LAST NAME)

Complete only if different from the surname (last name) to appear in the passport (for Passport Canada information only—will not appear in the passport)

PLACE OF BIRTH

The place of birth must be provided in the applicable form. If you do not wish the place of birth to appear in the passport, submit a written request. Be sure to denote the consulate or embassy of every country you plan to visit. Ensure that the child will be identified if the passport does not include the place of birth.

SIGNATURE

The child, if 16 years of age or over, must sign the form. [illegible] sign [illegible]. The child's signature in section 1 will appear in the passport. Therefore, the signature must not exceed the inner limits of the signature box.

Signature — Acceptable

Signature — Unacceptable

Note: At no time should a person other than the child sign in the signature box, section 1.

(M) *Information on Applicant*

Both parents are requested to participate in obtaining passports for their child and to sign the application form. The other parent may be contacted. Where a legal guardian is the applicant, the other legal guardian as the case may be is also requested to participate. Proof of legal guardianship is required.

CUSTODY, SEPARATION AND DIVORCE

Where a court order or agreement exists relating to custody of the child, only the person with custodial rights may apply. All documents that indicate custody, mobility or access to the child must be provided. If a divorce has been granted, a copy of the divorce judgement or order must also be provided. Where joint custody prevails exist, either parent may apply.

RELATIONSHIP WITH OTHER PARENT

Indicate yes or no if relationship with the other parent, single, common-law married, separated, divorced, widowed. Indicate date of marriage to the other parent if applicable. Additional information or documentation may be requested.

For further information, contact Passport Canada.

CHILDREN IN FOSTER CARE AND UNDERGOING AN ADOPTION PROCESS IN CANADA

In addition to this form, you must complete the form PPTC 483, *Additional Information for "Children in foster care and Children undergoing an adoption process in Canada"*. For more information, please see the Informed Consent and Documents required" section on form PPTC 483 and click on the "Children in foster care or in the process of adoption" link on the Forms icon of the Passport Canada website at www.passportcanada.gc.ca.

PARENTAGE LINK BETWEEN THE CHILD AND THE PARENT(S)

You must provide one of the following acceptable proof of parentage documents demonstrating the relationship between the child and the parent(s):

- a detailed birth certificate from Canada or a foreign country where the child was born, indicating the name(s) the parent(s), or
- an order of adoption indicating the name of the adopting parent(s)

Note: A divorce decree, decision, order or judgment or separation agreement attributing parental responsibilities constitutes a complementary document submitted to the birth certificate in an adoption order.

Exception: An application submitted on behalf of a child will be accepted without proof of parentage only if all of the following criteria are met:

- *A Canadian travel document was previously issued to the child in his or her name*
- *The previously issued travel document is still valid or expired for less than one year; and*
- *The previously issued travel document accompanies the new application.*

(N) *Previous Canadian Travel Document*

Enclose any valid Canadian passport, certificate of identity or refugee travel document issued to the child. If the child's current passport expires more than 12 months from the date the application is submitted, provide a written explanation as to why you are applying at this time. Should Passport Canada not be satisfied that you have a valid reason for applying early, your application for a new passport may be refused.

A person's name may appear in only one (1) valid Canadian passport, certificate of identity or refugee travel document.

If a valid passport has been lost, stolen, damaged, destroyed or is inaccessible, complete form PPTC 203, *DECLARATION*, available online at www.passportcanada.gc.ca, any Passport Canada regional office in Canada or at any Government of Canada office in the USA. A Canadian passport that is reported lost or stolen is no longer valid and is not to be used for travel.

TD Aeroplan™ Important Credit Card Terms and Conditions

Terms, fees and other important details of the TD Aeroplan Credit Card are explained below. Additional terms and conditions are described in the Credit Card Agreement that will be provided to you when your card is issued. In these Terms, "TD Bank", "we", "us" or "our" refers to the issuer of the TD Credit Card. The Bank may change the terms of your account from time to time in the Credit Card Agreement. Together, the Agreement and these Terms form the applicable terms. For example, you may add new terms or change terms we offer. Any change is governed in accordance with the Agreement. Terms on information in your credit report, market conditions, or your business strategies. If you qualify for a TD Aeroplan Visa Credit Card and are approved, you will either receive a Visa Signature card if your approved credit limit is $5,000 or greater or a Visa Platinum card if your approved credit limit is less than $5,000. Both Signature and Platinum cards have the same account terms and conditions, however our Signature card comes with added Visa Signature benefits such as complimentary 2-for concierge, access to exclusive events, special shopping perks and more.

The information about the costs of the card described below is accurate as of September 1, 2014. This information may change after that date. To find out what may have changed, please call TD Bank at 1-888-571-4441 or write to TD Card Services, P.O. Box 84039, Columbus, GA 31908-4039.

New York Residents may contact the New York State Department of Financial Services by telephone or via its website for information about comparative credit card rates, fees and other terms.

Interest Rates and Interest Charges	
Annual Percentage Rate (APR) for Purchases	13.99%, 18.99%, 22.99%, based on your credit rating at the time we open your account. All of these rates are variable. See details below.
APR for Balance Transfers	13.99%, 18.99%, 22.99% based on your credit rating at the time we open your account. All of these rates are variable. See details below.
APR for Cash Advances	22.24% The APR will apply until the end of the first billing period.
How is Your Variable Interest Rate Determined?	The variable rates above may change on the first day of each billing period. The variable rate is determined by adding a margin to the Prime Rate. The Prime Rate is the rate published in the Wall Street Journal on the last business day of the previous month. The margin will be applied to the Prime Rate to determine your variable rate. The margin will be between 9.99% and 12.99% for purchases, between 18.99% and 21.99% for balance transfers and between 18.99% and 21.99% for cash advances. The margin that applies to your account will depend on your credit rating at the time we open your account.
Minimum Interest Charge	If you owe interest on your account, we will charge you at least $1.00.
Fee Credit Card Tips from the Consumer Financial Protection Bureau	To learn more about factors to consider when applying for or using a credit card, visit the website of the Consumer Financial Protection Bureau at http://www.consumerfinance.gov/learnmore.

Fees	
Annual Fee	$0 Annual Fee for Primary and Additional Cardholders.
Transaction Fees	Balance Transfers	$0 or $10 or 4% of the amount transferred, whichever is greater.
	Cash Advances	$2 or $10 or 4% of the amount transferred, whichever is greater.
	Foreign Transactions	2.5% of each transaction in CDN. dollars.
Penalty Fees	Late Payment	Up to $35.
	Over the Credit Limit	$29.
	Returned Payment	$40.

Non-TD Bank ATM Withdrawal: We do not charge you a fee, but the owner of the non-TD Bank ATM may charge a fee. You may also be charged a fee by your financial institution if you use your TD Aeroplan Visa Debit Card or TD Access Card at a non-TD Bank ATM.

Annual Percentage Rate (APR) for Purchases: Each month, we add any interest charges to the purchases you made on your account during the month. Interest charges are calculated by applying a daily interest rate to the balance on your account each day. The daily interest rate is the APR for purchases divided by 365 (366 in a leap year). The APR for purchases is variable and may change on the first day of each billing period. The variable rate is determined by adding a margin to the Prime Rate. The Prime Rate is the rate published in the Wall Street Journal on the last business day of the previous month. The margin will be applied to the Prime Rate to determine your variable rate. The margin will be between 9.99% and 12.99% for purchases, between 18.99% and 21.99% for balance transfers and between 18.99% and 21.99% for cash advances. The margin that applies to your account will depend on your credit rating at the time we open your account.

How to Avoid Paying Interest on Purchases: You can avoid paying interest on purchases by paying your balance in full each month by the payment due date.

Minimum Interest Charge: If you owe interest on your account, we will charge you at least $1.00.

Balance Transfers: Transfers of balances from other credit cards to your account.

Cash Advances: Cash you get from an ATM or bank machine, or by cheque.

Foreign Transactions: Purchases and cash advances made in a foreign currency will be converted into Canadian dollars by Visa International using a currency conversion rate that is either a government-mandated rate or a wholesale rate that Visa International selects for the applicable processing date. The conversion rate may differ from the rate that was in effect on the date you made the transaction or the date the transaction was posted to your account. A foreign transaction fee will be charged on the Canadian dollar amount of each transaction made in a foreign currency, including transactions made in Canada with merchants who bill you in a foreign currency.

Late Payment: If we do not receive your minimum payment by the payment due date, we will charge you a late payment fee.

Over the Credit Limit: If your account balance is more than your credit limit at the end of the billing period, we will charge you an over the credit limit fee.

Returned Payment: If your payment is returned for insufficient funds, we will charge you a returned payment fee.

MASTER

taking the cultures as they are (a sort of "you get what you see" method) here and now (the synchronic approach, sometimes called the ethnographic present). We do this without denying that the cultures are subject to historical change and therefore that the phenomena we observe may be somewhat different in form and substance today from those of the past (the diachronic approach). While we attempt to do an "emic" description, we, I for one, and perhaps you, are negatively "etic" in our perception and not in digestion to the cultures, who can provide a narrative only in their own way of exemplification. We have to use language we are familiar with. We manage by using models to which we can relate.

One last biographical point deserves attention. The author is a Divine Word Missionary who spent almost thirteen years in Ghana, teaching and serving in the ministry. As a Roman Catholic theologian, I have my own principles. I am a liturgist, a specialist in Catholic worship and ritual. But I have made it my personal concern over the years to observe rituals of other religions and even secular rituals and body language (ritual studies). My missionary congregation is steeped in the study of multi-religion and the phenomenological principles to study the language and the culture of the Akan of Ghana, a large linguistic group comprising a number of ethnic groups speaking various dialects or states called Twi. I am also a Euro-American. The Ghanaians say that I am *obruni koko*, "a pink-skinned person from behind the cocoa field." While my origin and background may tend to shade my view somewhat, I have tried not to westernize or to christianize or the discussion or my interpretation of West African societies. I focus on the Akan most of all because that is the area of West Africa I know the best firsthand. I am quite familiar with the relatively nearby cultures of the Ga, Krobo and Ewe, and to some extent those of the Yoruba and the Igbo, from personal interviews as well as research. A number of friends and advisors, mentioned in the Acknowledgments, have over the years taught me Twi and the Ghanaian cultures, written down information for me as a personal favor or as classroom assignments—for me video-tape them.

So the title of our study is *West African Religious Traditional: Focus on the Akan of Ghana*. The reader should note that I commence with the phenomena rather than the ideas or beliefs. It is in the performance of the religious that the traditions are actualized and therefore known in an oral milieu. Even revelation is fleshed out with gestures, names and sounds, as we shall soon realize in the coming chapters. We begin with dance and rhythm with song and recitation in a vocal language. An Ifa diviner in Yoruba and other East Islams so used the cowrie chain before his priestly manipulations the 256 poems connected with each throw. To repeat performances is the forte for the primary sources in oral traditions.

Moreover, in the West African societies we are interpreting, human beings are the central figures of the cosmos, not God, not the deities nor even

simulation lab evaluations. Anyone interested in further information or in helping with assessment is encouraged to contact the chair

c. Workshops – February 22 & March 22
   i. Workshops will be held from 1330-1530 on these days. The topics are Family Dynamics and Burnout Prevention and adjunct faculty are encouraged to attend.

f. Possible shift minimums?
   i. Concerns were raised that shifts are being shortened. This will be investigated. Lab shifts should be running for approximately the entire scheduled time.
   ii. Shift minimums were not universally endorsed, however, there seemed to be a general consensus that they would probably do no harm but may not solve the entire problem of shift coverage

III. Open Forum
   a. There was discussion on quality and quantity of student feedback and course evaluations. There is typically low compliance on the student side with getting these evaluations filled out. Suggestions to improve compliance include not releasing certificates or grades until evaluations are completed. This could interfere with student anonymity and may not be allowed
   b. Adjunct faculty suggested having a more formal, written way of communicating their own feedback about specific lab sessions. Anyone with suggestions on what to call this form is encouraged to contact the chair, who will draft something for everyone's review. Specific concerns included the skills sheets for CPR/ALD, BVM, and Trauma
   c. Adjunct faculty would also like to see information on current standards and skill sheets posted online for review prior to coming to work
   d. Adjunct faculty would like clarification on the role of skills previewed by students on ALS Assist day. Expectations are not clear about whether students should be referencing ALS skills in later labs. The chair will bring this concern to primary faculty and report back with clearer expectations
   e. On assessment days, it would be helpful to schedule two adjuncts per lab session. One adjunct could score students on the NR sheets and one could score students with the simulation lab tool

The paragraph below comes from a 1979 essay by expatriate African American writer James Baldwin. Read the paragraph carefully and then write an essay that defends, challenges, or qualifies Baldwin's ideas about the importance of language as a "key to identity" and to social acceptance. Use specific evidence from your observation, experience, or reading to develop your position.

It goes without saying, then, that language is also a political instrument, means, and proof of power. It is the most vivid and crucial key to identity. It reveals the private identity and connects one with, or diverges one from, the larger public...or communal identity. There have been, and are, times, and places, when to speak a certain language could be dangerous, even fatal. Or, one may speak the same language, but in such a way that one's antecedents are revealed, or (one hopes) hidden. This is true in France, and is absolutely true in England. The range (and reign) of accents on that damp little island make England exclusively for the English and totally incomprehensible for everyone else. To open your mouth in England is (if I may use black English) to "put your business in the street." You have confessed your parents, your youth, your school, your salary, your self-esteem, and, alas, your future.

Fax Hardware Test
Fax Connected to Active Telephone Wall Jack

PASS
FAIL

An active phone line was not detected

Please check the items below then rerun this test.

Check the phone cord connection between the wall jack and the fax

The phone cord from the wall jack should be connected to the port labeled "1-LINE" on the back of your HP device

If you are using a splitter or some other device between the fax and the wall jack, remove it and connect the fax directly to the wall jack

Plug your phone into the wall jack and check that a dial tone is available.

Check that you are using the phone cord supplied with your HP device

Refer to your User Guide for more information on the fax test and settings.

Instructions on how to rerun this test:
Step 1. Press the "Fax" button
Step 2. Choose the "Setup" menu
Step 3. Choose the "Tools" menu
Step 4. Choose the "Run Fax Test" menu

11.7.3. BOOTP Information

If you have a bootp server, you can put this information in the bootptab file. To use this, you must enable the bootp option on the printer. The T144 option specifies a file to be read from the bootp server. This file is read by using the TFTP protocol, and you must have a TFTPD server enabled. Here is a sample bootptab entry

```
# Example /etc/bootptab: database for bootp server (/etc/bootpd)
# Blank lines and lines beginning with '#' are ignored.
#
# Legend:
#
#       first field -- hostname
#                      (may be full domain name)
#
#       hd -- home directory
#       bf -- bootfile
#       cs -- cookie servers
#       ds -- domain name servers
#       gw -- gateways
#       ha -- hardware address
#       ht -- hardware type
#       im -- impress servers
#       ip -- host IP address
#       lg -- log servers
#       lp -- LPR servers
#       ns -- IEN-116 name servers
#       rl -- resource location protocol servers
#       sm -- subnet mask
#       tc -- template host (points to similar host entry)
#       to -- time offset (seconds)
#       ts -- time servers
#
# Be careful about including backslashes where they're needed.
# Weird (bad) things can happen when a backslash is omitted
# where one is intended.

EchoSystem SafeCapture HD

The Affordable, Smart Choice for Blended Learning and Lecture Capture

EchoSystem SafeCapture HD, the second-generation capture appliance from Echo360, is the preferred deployment option for reliable and secure lecture capture. Scalable and easy to maintain, the Pre-enabled SafeCapture HD is the intelligent choice to make standardized recording a standard on your campus. Trust your valuable instruction to nothing less.

Best-in-Class Quality

SafeCapture HD delivers stellar playback experience for students. Record the gamut of video resolutions from 480p to high-definition 1080p at 30fps. Capture every detail of the instructor's desktop at native displays up to 1920x1200. All with synchronous playback of embedded video, narration, and mouse movements. And if you don't have HD for every classroom or every class, SafeCapture HD's IT scripts transcode high-definition files, reducing the need for additional storage.

Infinitely Flexible

SafeCapture HD is the only solution that allows recordings to be easily resized on-the-fly, by the instructor — preserving resources that are not always available. Based on the Pure Linux platform, SafeCapture HD is scalable, and the ability of the playback appliance SafeCapture HD is a future-proof solution for any venue. There's no need to integrate, deploy and maintain personal computers with third-party capture cards.

Virus Free Capture

SafeCapture HD provides institutions with a hardened platform resistant to the attacks PC-based solutions. Viruses and security breaches. No firewall or virus protection software is required.

Lowest Total Cost of Ownership

SafeCapture HD is the industry's only recording and capture solution. Easy to install, it leverages standard, standalone feed from your existing AV system. Open standards and interfaces and other classroom technology. Web Services and high availability in order to ensure that no capture is missed. Remote monitoring and management helps reduce system administration and support costs.

Ready to Integrate with Ease

SafeCapture HD's user-friendly and transparent interface allows the inexperienced user to easily and quickly learn application, document, and support. Simply deliver a URL for instructors using their laptops, just plug in and begin. SafeCapture HD delivers and records nearly 2,000 different computer resolutions.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Pastor who admits to having AIDS and sleeping with parishioners won't step down

A pastor in Alabama is refusing to step down after confessing to having AIDS, sleeping with church members without telling them about his HIV infection, taking drugs, and misusing funds.

Rev. Juan Demetrius McFarland has been at Montgomery's Shiloh Missionary Baptist Church for 21 years. In Sunday sermons starting Sept. 14, McFarland admitted his health status, then his misdeeds, the pastor and members of his flock told WSFA 12 News. The church membership voted 80-1 to remove McFarland on Oct. 2, but he will not leave.

A lawyer representing deacons in the church said McFarland and a couple other would not let them on the premises, telling deacons trying to change the locks they would face "castle law." If they tried to come to services, "They're warned if they show up to church, they could get shot," Kenneth Shinbaum said. "Unless the pastor steps down voluntarily, this may very well end up in court." McFarland may turn up in court for another reason: In Alabama, spreading a sexually transmitted disease is a Class C misdemeanor; since nobody has filed a complaint, McFarland isn't under investigation at the moment.

The announcement stunned parishioners, who at first were worried about McFarland's health, and then were upset for the rest of his revelations. "Who does this to people, and you are the leader?" one congregation member told WSFA 12 News. "Who does this?"

—Catherine Garcia

CNN) — The mystery surrounding the whereabouts of Kim Jong Un deepened Friday after the North Korean leader appeared to have missed a ceremony to pay tribute to his late father and grandfather on what is an important national anniversary.

Kim's name was absent from the list of attendees at the Kumsusaan Palace of the Sun in Pyongyang on the 69th anniversary of the Workers' Party of North Korea, issued by state news agency KCNA on Friday.

The Workers' Party, founded in 1945, is North Korea's political party and is considered one of the country's most crucial institutions alongside the military.

According to KCNA, flowers were presented at the shrine in Kim's name, but the most senior official to attend was Hwang Pyong So, North Korea's second most important leader, who recently attended the closing ceremony of the 17th Asian Games in South Korea.

Kim hasn't been seen in public since he reportedly attended a concert with his wife on September 3. It's his longest absence from official events since he made his first public appearance in 2010, NK News said.

Patients Rights & Responsibilities

Patients Rights and Responsibilities were established with the expectation that observance by the governing body, medical staff and the employees of the Northwest Endoscopy Center, LLC will contribute to more effective patient care and greater satisfaction for the patient, family, physician and the facility caring for the patient. We jointly affirm and recognize the following rights and responsibilities of patients as we uphold respect for each race, gender, national origin, religion, culture, physical handicap, personal values or belief systems. All Patients have the right to:

- Know the rules and regulations that apply to patient care and conduct and are responsible for abiding those rules and regulations.
- Receive the policy on advance directives in the facility and be given information upon request.
- Make informed decisions regarding his/her care
- Receive information and request consent before medical care, and receive full information about treatment proposed and the expected outcome before it is performed.
- Exercise these rights without being subjected to discrimination or reprisal
- Be fully informed of the scope of services available at the facility, provisions for after-hours, emergency care and estimation of related fees for services rendered.
- All patients have the right to be informed of alternative treatment and to choose among all alternatives, including the right to refuse treatment to the extent permitted by law and to be informed of the medical consequences of their actions. Patients in turn exercise their right to voice grievances regarding treatment or care that is (or fails to be) provided. All patients are responsible for their own actions if they refuse treatment or do not follow the doctor's recommendations.
- Be informed of any human experimentation or other research/educational projects affecting his or her care or treatment and can refuse participation in such experimentation or research without compromise to the patient's usual care
- Full consideration of personal privacy concerning their medical care and receive this care in a safe setting and be free from all forms of abuse or harassment.
- Patients are responsible for being considerate of the privacy of other patients.
- We follow state and federal laws regarding confidential treatment of their medical records
- Change physician or other qualified physician is available
- Be fully informed before they transfer to another facility or examination.
- Examine and receive an explanation of their bill, regardless of the source of payment. Patients have the responsibility to provide information necessary for claim processing and to be present to approval of their bills

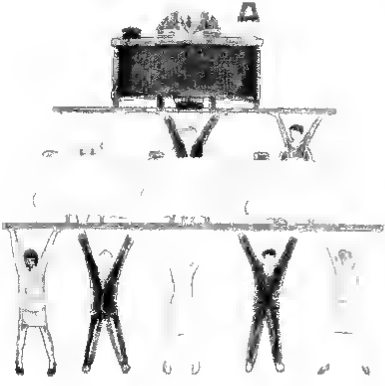
Challenges and Strategies of Matrix Organizations:

Top-Level and Mid-Level Managers' Perspectives

Thomas Sy, College of Business Administration, California State University, Long Beach, Laura Sue D'Annunzio, A.T. Kearney Inc.



Using surveys, interviews, and workshops with 294 top-level and mid-level managers from seven major multinational corporations in six industries, we identified the top five contemporary challenges of the matrix organizational form: (1) misaligned goals, (2) unclear roles and responsibilities, (3) ambiguous authority, (4) lack of a matrix guardian, and (5) silo-focused employees. We also provide managers with the best practices that will improve their matrix organizations.

Interest in matrix organizational structures peaked during the 1970s and 1980s. Since that time, research and literature on the matrix have dropped noticeably. Some recently, organizations continue to adopt the matrix as a viable alternative to deal with their increasingly complex

Implants In 30 Minutes

Owing to advances in medical technology, surgical technique and the fact that silicone breast implants have been determined to be perfectly safe, a California cosmetic surgery practice is opening in a new office where breast augmentation surgery is done on an outpatient basis in about 30 minutes.

They are going to call the clinic: "Jiffy Boob."

©2015 AT&T Knowledge Ventures. All rights reserved.

Paying by check or electronic AT&T is not the only way to make a one-time payment. Your payment must be received by your AT&T service provider no later than the due date on your bill. If we receive your payment after the due date, late payment charges may apply. Payments received by other AT&T companies may not be credited by the due date. Please check with your service provider for payment options and locations. Payments received after the due date may result in a late payment charge. Your wireless service may be suspended if the entire balance is not received by the due date. Your local service may be suspended or terminated if you do not pay your bill. Additional charges may apply to restore service. Your check is an agreement that you authorize AT&T to use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. When we use your check to make an electronic fund transfer, funds may be withdrawn from your account as soon as the same day we receive your payment, and you will not receive your check back from your financial institution. For questions about your bill, visit www.att.com/billquestions or call 1.800.288.2020. Please have your billing account number ready when you call.

Testing Your HP Fax Machine with the HP Fax Test Service

Print | Share | Feedback

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service. Print this document for easy reference by clicking the Print link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company. Refer to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from sending a fax, including voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good to make sure the *Automatic Reports* option is set to *Every Error* before attempting a test fax. This way, even if the test fax fails, a report code will be generated that will guide you in future troubleshooting. This option is available in different places on different printers; consult the product *User's Guide* for specific steps.

1. Send a one-page black and white test fax to 1-888-hpfaxes (1-888-473-2963)
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failures is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information at any stage, click **Contact HP** at the top of this page.

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX • You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

Privacy Act and Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the United States. We need it to figure and collect the right amount of tax. Chapter 23 Federal Unemployment Tax Act of Subtitle C Employment Taxes, of the Internal Revenue Code imposes a tax on employers with respect to employees. This form is used to determine the amount of the tax that you owe. Section 6011 requires you to provide the requested information if you are liable for FUTA tax under section 3301. Section 6109 requires you to provide your identification number. If you fail to provide this information in a timely manner or provide a false or fraudulent form, you may be subject to penalties.

You aren't required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books and records relating to a form or instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law.

Generally, tax returns and return information are confidential, as required by section 6103. However, section 6103 allows or requires the IRS to disclose or give the information shown on your tax return to others as described in the Code. For example, we may disclose your tax information to the Department of Justice for civil and criminal litigation, and to cities, states, the District of Columbia, and U.S. commonwealths and possessions to administer their tax laws. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated average time is:

Recordkeeping	9 hr. 19 min.
Learning about the law or the form	1 hr. 23 min.
Preparing, copying, assembling, and sending the form to the IRS	1 hr. 36 min.

If you have comments concerning the accuracy of these time estimates or suggestions for making Form 940 simpler, we would be happy to hear from you. You can send us comments from *www.irs.gov/formspubs*. Click on *More Information* and then click on *Give us feedback*. Or you can send your comments to Internal Revenue Service, Tax Forms and Publications Division, 1111 Constitution Ave. NW, IR-6526, Washington, DC 20224. Don't send Form 940 to this address. Instead, see *Where Do You File?* in the Instructions for Form 940.

EXAMPLES

Normally, a user can override a function when looking for a utility. For example, to override the test utility:

```
myfunc() { echo not today; }
test() { myfunc; }
```

However, when one is writing a specific version of the system such as /usr/bin/sh, one would use:

```
myfunc() { echo not today; }
command test() { myfunc; }
```

Errol's Fax Test

This is a paperless fax.

It was created on a computer without the use of paper.

Starting Monday, Daba Corporation will switch to paperless faxing in order to become more environmentally friendly. Because of this, all customers are now able to fax Daba Corporation in the case of support or billing inquiries.

In the event of mass faxing to the fax number, those messages will simply be deleted. No paper or ink will be used.

SOUTHEAST ANCHOR LIBRARY IN HIGHLANDTOWN:
Look for the David & Dad's Cafe to open at the Southeast Anchor Library first week of August. Lattes cool drinks, salads and sandwiches will be available at the NW corner location, lower level by the auditorium. Outdoor seating will be donated by the FRIENDS of the SOUTHEAST ANCHOR LIBRARY. The Butchers Hill Association and many neighbors are contributors and members, and if you bought a piece of pie at the fund raiser you too contributed to what promises to be an exciting edition to one of our favorite local branches of the Enoch Pratt Library system

LOCAL ARTISTS DISPLAY WORK AT LOCAL BARS AND RESTAURANTS

If you are interested in cultivating works of art by local artists a great way to find some is by supporting your local bars and restaurants. A lot of our artists display their work at different places nearby

Starting in July Butchers Hill resident and abstract artist Maxine Taylor will be displaying her work from the collection *"Urban Views"* at **Sal, a new American** tavern located at 2127 E Pratt Street beginning July 12 through September

BALTIMORE'S FOURTH of JULY FIREWORKS start at 9:30 pm Enjoy live entertainment earlier in the evening with performances at the Inner Harbor Amphitheater Pratt and Light streets For general information please call 1-877 BALTIMORE

HELP WITH BH PICNIC PLEASE!

Our July 8th Butchers Hill picnic is fast approaching and we need volunteers to help with the setting up and tearing down of the tables, tents, cloths, etc. Help is also needed with getting the keg wine, & water to Duncan Street Park. If anyone would stay awhile after the picnic to help clean up, that would be greatly appreciated. Please contact me to offer your services.

Hotmail

From Wikipedia, the free encyclopedia

Hotmail (officially **Microsoft Hotmail**, previously **Windows Live Hotmail** and **MSN Hotmail**) was a free web-based email service operated by Microsoft as part of Windows Live, which was recently replaced by the newer Outlook.com service by Microsoft. Hotmail was one of the first web-based email services.[3] It was founded by Sabeer Bhatia and Jack Smith and launched in July 1996 as **HoTMaiL**.[4] It was acquired by Microsoft in 1997 for an estimated $400 million, and shortly after, it was rebranded as "MSN Hotmail". The current version was released in 2011.[5]

Hotmail features unlimited storage, Ajax, and integration with Microsoft's instant messaging (Windows Live Messenger), calendar (Hotmail Calendar), file hosting service (SkyDrive), and contacts platform.[6] As of 2012, Hotmail was the world's second largest web-based email service after Gmail with 360 million users.[1][7] It is available in 36 different languages.[8][9]

Hotmail is developed from Mountain View, California. When Hotmail Corporation was an independent company, it was headquartered in Sunnyvale.[10][11]

On 18 February 2013, Outlook.com (a newer webmail service by Microsoft)[12] deprecated Hotmail.[13] Existing Hotmail customers are scheduled to be upgraded to Outlook.com during 2013.[13]

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and maybe learn interesting stuff.

You can fax something interesting to 1-855-330-1239 (your fax will never come... maybe) or 1 213-284-2943 (long distance to Los Angeles, California) and it should appear there within a couple of minutes. (It's a toll-free number if you're in the USA.) Keep it clean & legal.

Fax single-page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear but make no promises that this will actually work.

Privacy Policy: We hate spam and junk faxes, and will absolutely not send you any unsolicited e-mail or faxes. We won't share your information with marketers or anyone else.

Vivacious Vitamin D

Nature's Magic Bullet Now Scientifically Proven to Protect Against Cancer – and More

By HELKE FERRIE

The indisputable fact is that everybody from infancy onwards needs an absolute bare minimum of 1,000 IU daily just to survive comfortably, never mind being protected against future "latency disease" as described in the *American Journal of Clinical Nutrition* (2003 vol 78/5) And children need at least 2,000 IU daily 10 times the RDA amount of 200 IU according to *The Journal of Clinical Endocrinology and Metabolism*, July 2008

'Can you imagine what would happen if a drug company came out with a single pill that reduces the risk of cancer heart attack, stroke, osteoporosis, PMS, SAD, and various autoimmune disorders? There would be a media frenzy the likes of which has never been seen before! Well, guess what? Such a drug exists … it is the sun."

M. F Holick MD, discoverer of Vitamin D3

OPINION

At the 32nd annual conference on orthomolecular medicine in 2003 the ballroom at the Royal York Hotel in Toronto was packed with doctors and medical researchers. One of the speakers began by asking, "What would you like me to speak about? Cancer? Osteoporosis? Autoimmune diseases? Psychiatry?" It was Reinhold Vieth of the University of Toronto. His status as someone qualified to address all of the above conditions authoritatively was justified because he is one of the world's leading authorities on vitamin D.

Vitamin D3 is a prohormone and thus the most important precursor of all hormones, vitamins, and minerals. Without D3 the body's signal systems (hormones, neurotransmitters), and super-catalysts (minerals) cannot switch all other catalysts (vitamins) to cause the liver to create the 600 vitamin/mineral-dependent enzymes our bodies depend on. And Vitamin D regulates calcium and phosphorus levels, without which our food cannot nourish us properly.

A healthy human body uses the liver and kidneys to convert vitamin D obtained through diet and sunlight into an active form that the body can use. While still a graduate student in 1970 Michael F Holick discovered vitamin D3 – and that it is the only active form of Vitamin D the body can use and is, therefore, essential. In the 1990's he proved that actually every cell in our bodies has D3 receptors, not just the liver and kidneys.

Vitamin D3 prevents 17 types of cancer

Exactly how it prevents breast, colon and prostate cancers is now fully understood. Several long-term studies have shown that simply fortifying a person with 1 100 IU of D3 daily reduces the incidence of cancer by 77% over a three-year period. D3 also protects as against approximately 100 autoimmune diseases.

As well D3 to therapeutic doses sets up all those activities in the immune system that fight viral and bacterial infections, thus its emerging reputation as "the antibiotic vitamin." For a century before the advent of antibiotics, it was observed that daily long-term exposure to sunshine was the most successful cure for tuberculosis. The proof that sunlight can cure rickets and TB won Dr Niels Ryberg Finsen the Nobel Prize in 1903. Rickets in children had been treated since the 1700s by exposure to sunlight. Indeed, the Floating Hospital in Boston in the 19th century was a hospital ship on which rickets-affected children were taken on long trips for "heliotherapy."

The research of the last five years has further shown how D3 works to prevent (and even cure) certain types of liver disease (such as fatty liver), as well as bacterially-caused pregnancy problems, tooth decay, organ rejection in transplant surgery, certain skin diseases (atopic dermatitis, psoriasis), Type 1 diabetes in children, Multiple sclerosis and Parkinson's disease. D3 also reduces the need for painkillers in chronic pain patients.

Adequate levels of this vitamin in our bodies are achieved if we invite sunlight in. Our bodies can only make D3 by exposure to sun. Consequently, when sunlight is geographically or seasonally unavailable, or if some people cannot expose themselves for too long to sunlight, supplementation is absolutely necessary.

And as fortified by the very best published science, you can confidently tell your doctor you won't need the (mercury-laced) 'flu shot for any strain of influenza because nothing can prevent a 'flu as effectively as D3. It has been shown that the 'flu season is strictly associated with seasonal lack of sunlight and that taking D3 supplements protects you in fall, winter and spring.

You can rest assured that your blood pressure will be just fine too, if you have optimal amounts of D3 in your cells — optimal being dictated by the geographical region you live in: the more sun, the less blood pressure problems, the less

A city street surveillance network that now numbers hundreds of cameras is described as a 'work in progress'

Even more eyes over Houston

By JAMES PINKERTON
HOUSTON CHRONICLE

SITTING behind a stacked bank of monitors in a small conference room, Houston senior police officer Joe Mireles can survey much of the city's central business district with a click of his mouse.

One screen watches a group of children excitedly splashing through the water-works at Tranquility Park, while another zooms in on fleet traffic outside the Dollar Store at Main and Walker. One monitor displays a live feed from along Moore's light rail line, and the adjacent screen spies on a quiet corner of Eleanor Tinsley Park.

Mireles has tapped into the city's fast growing surveillance camera network that has been installed by the Mayor's Office of Public Safety and Homeland Security, one that has received far less attention than the controversial red-light camera system.

So far, drawing on $14 million in federal grants, the office has installed 330 cameras, of which 266 are providing live feeds to the

■ Finance officials hold emergency conference call to support stability

By ZACHARY A. GOLDFARB and ANTHONY FAIOLA
WASHINGTON POST

Top economic officials from around the world strategized Sunday on containing the fallout from an unprecedented downgrade of the U.S. credit rating and a continued worsening of Europe's economy.

Treasury Secretary Timothy Geithner and Federal Reserve Chairman Ben Bernanke joined counterparts from six of the world's largest economies in an emergency conference call Sunday morning to discuss how world markets would respond to Standard & Poor's downgrade

Assay Description and Limitations

Assay Description: [text illegible] is immunohistochemical assay for detection of HER2 protein overexpression in the above breast infiltrating carcinoma tissue specimen. Assay is performed on formalin-fixed, paraffin-embedded tissue sections using [illegible] monoclonal antibody. Results are interpreted according to manufacturer's instructions. Limitations: Incorrect fixation of tissue specimen may result in false-negative or false-positive results. Only [illegible] should be used for diagnosis of breast cancer patients. Assay validated on [illegible] tissue specimens. Clinical utility of positive and negative results has been established for breast cancer patients in trials [illegible] and [illegible]. Refer to package insert for instructions, warnings, precautions, and limitations.

Estrogen Receptor (ER): Immunohistochemical staining was performed on the above specimen using [illegible] monoclonal antibody. Results are interpreted according to manufacturer's instructions. Limitations: Incorrect fixation of tissue specimen may result in false-negative or false-positive results. Only [illegible] should be used for diagnosis of breast cancer patients. Assay validated on [illegible] tissue specimens. Clinical utility of positive and negative results has been established for breast cancer patients in trials [illegible] and [illegible]. Refer to package insert for instructions, warnings, precautions, and limitations.

Progesterone Receptor: [illegible] monoclonal antibody was used for the qualitative immunohistochemical staining of formalin-fixed, paraffin-embedded tissue sections. Results are interpreted according to manufacturer's instructions. Limitations: Incorrect fixation of tissue specimen may result in false-negative or false-positive results. Only [illegible] should be used for diagnosis of breast cancer patients. Assay validated on [illegible] tissue specimens. Clinical utility of positive and negative results has been established for breast cancer patients in trials [illegible] and [illegible]. Refer to package insert for instructions, warnings, precautions, and limitations.

Ki-67: [illegible] was used for qualitative and/or semi-quantitative immunohistochemical staining of Ki-67 antigen expression in formalin-fixed, paraffin-embedded tissue by automated immunostainer. Staining using the manufacturer's instructions.

p53: [illegible] monoclonal antibody was used for the qualitative and/or semi-quantitative immunohistochemical staining of human p53 protein in formalin-fixed, paraffin-embedded tissue sections. Results are interpreted according to manufacturer's instructions. Limitations: Incorrect fixation of tissue specimen may result in false-negative or false-positive results. Only [illegible] should be used for diagnosis of breast cancer patients. Assay validated on [illegible] tissue specimens. Clinical utility of positive and negative results has been established for breast cancer patients in trials [illegible] and [illegible]. Refer to package insert for instructions, warnings, precautions, and limitations.

CancerTYPE ID — Molecular Classification with CancerTYPE ID

FFPE Tissue Processing & Tumor Enrichment

- CancerTYPE ID requires as few as 300-500 viable tumor cells and is compatible with limited biopsy specimens such as FNAs, cytological specimens, and small core needle biopsies.
- CancerTYPE ID routinely employs laser guided microdissection to enrich for tumor specimen.

Gene Expression Profiling

- CancerTYPE ID uses a robust real-time RT-PCR platform to detect very small differences in gene expression.
- CancerTYPE ID measures and integrates the gene expression of 92 genes, 5 normalization genes and 87 lineage determinant and tissue-specific genes, most of which are not routinely measured by IHC.

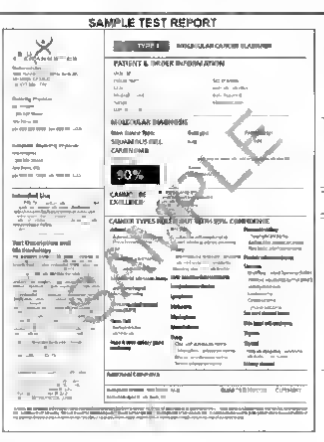
Reference Tumor Database & Algorithm

- CancerTYPE ID uses a computational algorithm to predict the patient's tumor type based on the degree of similarity of the sample's 92-gene expression profile to a reference database of gene expression profiles. The reference database contains gene expression information from over 2,000 tumor specimens of known histogenesis, and representing ~95% of all solid tumors based on incidence.
- The CancerTYPE ID algorithm provides a predicted main type and any sub-types in rank-order by relative probabilities, which are based on the tumor's gene expression similarity to tumors of these types in the reference database.

Molecular Classification

- CancerTYPE ID classifies 28 tumor types and 50 tumor subtypes.
- In an independent validation of 2998 blinded samples, the molecular diagnosis was 87% accurate for main tumor type and 86% accurate for tumor subtype.

SAMPLE TEST REPORT



Interpreting CancerTYPE ID Test Results

MOLECULAR DIAGNOSIS

The [redacted] molecular diagnosis is the CancerTYPE ID prediction of certain tumor subtypes. It is reported probability (≥ 80%), the tumor is reported as "Indeterminate", in this case, the test report will also indicate tumor types that can be ruled out (see below) that cannot be excluded.

CAN NOT BE EXCLUDED

When applicable, tumor types on the CancerTYPE ID reference database that share some gene expression profile similarity to the patient's sample such that they cannot be excluded. Item diagnostic consideration will be listed here in rank order.

RULE OUTS

The CancerTYPE ID test report also lists tumor types that can all be ruled out with 95% confidence. In an independent validation of 2998 blinded samples, the rule-outs were 95% accurate. This may provide useful differential diagnostic information when two or more potential tumor types are suspected and one or more tumors may be ruled out in the rule outs.

National Zoo Panda Cam Would Go Dark in Shutdown

WASHINGTON, September 30, 2013 (AP)

Officials say the Smithsonian's National Zoo's panda cam and all other live animal cameras will go dark in the event of a government shutdown. The zoo will be closed to visitors as well.

The zoo tweeted Monday that "None of our live animal cams will be broadcast." Officials say this includes the panda cam, which has been popular since the birth of a cub Aug. 23.

The zoo tweeted, "The cameras and the panda camera require full staff resources, especially staff to run. They have not been deemed essential."

A spokeswoman for the zoo said the panda cam and others would go offline Tuesday morning when furloughed staff will be allowed to conduct an orderly shutdown.

Officials said a shutdown would not affect the feeding and care of the animals.

Form W-4 (2016)

Purpose. Complete Form W-4 so that your employer can withhold the correct federal income tax from your pay. Consider completing a new Form W-4 each year and when your personal or financial situation changes.

Exemption from withholding. You may claim exemption from withholding for 2016 if both of the following apply. For 2016, you had a right to a refund of all federal income tax withheld because you had no tax liability, and this year you expect a refund of all federal income tax withheld because you expect to have no tax liability. If you meet both conditions, write "Exempt" here

Note. If another person can claim you as a dependent on his or her tax return, you cannot claim exemption from withholding if your income exceeds $1,050 and includes more than $350 of unearned income (for example, interest and dividends).

Employees. An employee may be able to claim exemption from withholding even if the employee is a dependent, if the employee:

- Is age 65 or older
- Is blind, or
- Will claim adjustments to income; tax credits; or itemized deductions, on his or her tax return.

The exception does not apply to supplemental wages greater than $1,050.

Head of household. If you are unsure if you meet the definition of head of household, see the IRS tax return guide. If you are married and you have more than 50% of the cost of keeping up a home for yourself and your spouse (or former spouse), see Publication 501, Dual Status Taxpayers, Nonresident Alien, and Filing Information Returns for Households.

Tax credits. You can claim other tax credits on your tax return, such as the earned income credit (EIC), the additional child tax credit, and the credit for the elderly or the disabled, using the Personal Allowances Worksheet below. See Pub. 505 for information on coordinating your total tax with tax withholding.

Nonwage income. If you have a large amount of nonwage income, such as interest or dividends, consider making estimated tax payments using Form 1040-ES, Estimated Tax for Individuals. Otherwise, you may owe additional tax. If you have a spouse or qualifying children, you may want to consider the Two-Earners/Multiple Jobs Worksheet on page 2 to avoid having too little tax withheld.

Two jobs. If you have a working spouse or more than one job, figure the total number of allowances you are entitled to claim on all jobs using worksheets from only one Form W-4. Your withholding usually will be most accurate when all allowances are claimed on the Form W-4 for the highest paying job and zero allowances are claimed on the others. See Pub. 505 for details.

Nonresident alien. If you are a nonresident alien, see Notice 1392, Supplemental Form W-4 Instructions for Nonresident Aliens, before completing this form.

Check your withholding. After your Form W-4 takes effect, use Pub. 505 to see how the amount you are having withheld compares to your projected total tax for 2016. See Pub. 505, especially if your total wages (line 1) exceed $130,000 (Single or Married filing separately) or $180,000 (Married filing jointly).

Future developments. Information about any future developments affecting Form W-4 (such as legislation enacted after we release it) will be posted at www.irs.gov/w4.

Personal Allowances Worksheet (Keep for your records.)

A Enter "1" for **yourself** if no one else can claim you as a dependent . . . . . **A**

B Enter "1" if: **B**
- You are single and have only one job; or
- You are married, have only one job, and your spouse does not work; or
- Your wages from a second job or your spouse's wages (or the total of both) are $1,000 or less.

C Enter "1" for your **spouse.** But, you may choose to enter "-0-" if you are married and have either a working spouse or more than one job. (Entering "-0-" may help you avoid having too little tax withheld.) . . . . . **C**

D Enter number of **dependents** (other than your spouse or yourself) you will claim on your tax return . . . . . **D**

E Enter "1" if you will file the head of household on your tax return (see conditions under **Head of household** above) . . . . . **E**

F Enter "1" if you have at least $2,000 of child or **dependent care expenses** for which you plan to claim a credit . . . . . **F**

(**Note:** Do not include child support payments. See Pub. 503, Child and Dependent Care Expenses, for details.)

G **Child Tax Credit** (including additional child tax credit). See Pub. 972, Child Tax Credit, for more information.
- If your total income will be less than $75,000 ($110,000 if married), enter "2" for each eligible child then less "1" if you have two or four eligible children or less "2" if you have five or more eligible children. . . . . **G**
- If your total income will be between $75,000 and $84,000 ($110,000 and $119,000 if married), enter "1" for each eligible child

H Add lines A through G and enter total here. (**Note:** This may be different from the number of exemptions you claim on your tax return.) ▶ **H**

For accuracy, complete all worksheets that apply.

- If you plan to itemize or claim adjustments to income and want to reduce your withholding, see the Deductions and Adjustments Worksheet on page 2.
- If you are single and have more than one job or are married and you and your spouse both work and the combined earnings from all jobs exceed $50,000 ($20,000 if married), see the Two-Earners/Multiple Jobs Worksheet on page 2 to avoid having too little tax withheld.
- If neither of the exceptions applies, stop here and enter the number from line H on line 5 of Form W-4 below.

Separate here and give Form W-4 to your employer. Keep the top part for your records.

Form **W-4** (Rev. February 2016)

4. What if the first case is appealed for lack of subject matter jurisdiction and the appellate court affirms but the appellate court is incorrect. Should that be a factor in not according res judicata status to the first action?

ANS This is just a "think" question once you figure out the syntax!

5. In this case there was no diversity of citizenship and the writ of error was to the Supreme Court of Iowa then what's the basis for jurisdiction for this case in the United States Supreme Court?

ANS Well, even though they weren't supposed to, the parties ended up removed to federal court. If the Supreme Court does not step in then the case just stands there as decided by the lower courts

Bottom line – ok, there might be some instances where an incorrect first verdict blocks a later case However, again, it's the price we pay for the system to work or else we would be allowing parties to come back for more bites of the apple

The right touch...the perfect read!

The Author's Red Room editing team wants to help you make your manuscript shine without spending an arm and leg to do it. Fair pricing and great service is our vision.

To deliver a great reading experience, you need both your skill as a writer and an error free product. At The Author's Red Room you will always have two editors reading your manuscript. As we edit, we are not only looking for spelling and grammatical errors, but are also searching for words used as crutches, misused, overused, and overwhelming. We are editing for flow, tone, style, and consistency. In doing this our hope is to keep it smooth and enjoyable. We make sure that you've explained yourself well, that nothing needs to be added—or deleted—and that everything is where it belongs. Also, while we are not fact checkers, if information seems unlikely or exaggerated, we may suggest that the author confirm the information. We look at the small details and at the big picture.

It's important for you as an author to keep your own voice, and it is essential for us to let it shine.

Here is how the process works.

- If you are a new client, submit a sample chapter for us to edit to: edits@theauthorsredroom.com. *(Max. 10 pages, Courier 12 pt font, double spaced)*

If you like our work:

- Send the complete manuscript, along with the deposit. (we will send you an invoice for the deposit)
- We will send you an estimate as well as our contract, and establish a deadline you agree on and approve.
- After we complete the first edit, we will return it for you to make any changes.
- When you send it back with the remaining payment balance, the second editor will read through the revised manuscript to make sure everything is perfect and return the final proof.

Email us and let's get started—edits@theauthorsredroom.com

Demo and Full installation
Try Ubuntu without installing. Simply reboot your machine with the CD in the tray. You may perform a full installation from within the desktop to install Ubuntu either alongside Windows or as the only operating system.
Install inside Windows
Install and uninstall Ubuntu like any other application without the need for a dedicated partition. You will be able to boot into either Windows or Ubuntu. Hibernation is not supported in this mode and disk performance is slightly reduced.

The Future

There is no easy fight for patients to compare the value of health care choices. In the future, people will get information that will make it easier to compare the quality and related costs necessary to find high-quality, low-cost health care. Likewise, payers and hospitals will have the comparative information they need to improve...

Ingredients

Crepe Batter

- 1 cup all-purpose flour
- Pinch salt
- 1 egg
- 1 egg yolk
- 1 1/2 to 2 cups milk
- 1 tablespoon melted butter
- 1/2 teaspoon vanilla extract

Topping

- 1 jar hazelnut chocolate spread
- 5 bananas, sliced
- 1 can whipping cream

Directions

Sift the flour with the salt into a bowl. Make a well in the center and add the egg and egg yolk. Pour in the milk, slowly, stirring constantly and, when half is added, stir in the melted butter and vanilla. Beat well until smooth. Add the remaining milk, cover and let stand at room temperature for at least 20 minutes before using. The batter should be the consistency of light cream. Heat a well greased 6-inch skillet. Add 1/4 cup batter. Tip skillet from side to side until batter covers bottom. Cook until the bottom is golden brown, turn and remove to a plate. Repeat with remaining batter. Spread a thin layer of chocolate hazelnut spread onto crepe and place banana slices down the center. Roll or fold crepe. Just before serving top with whipped cream.

Step 3 Make a Test Call Using OBiTALK

At any time, you may place a test call to the OBi Number below

OBiTALK Test No

Dial **9 followed by: 222 222 222

Your OBi is ready to make FREE calls to other OBi endpoints using the **OBiTALK** network. On the bottom of your unit, you will see a 9-digit OBi Number. This is **your** OBi Number. Give this number to your friends, family and colleagues so they can call you from their OBi device or using the OBiON iPhone and Android apps for smart phones.

To use the **OBiTALK** network, all you have to do is install your OBi, pick up the phone and then call your friends by dialing **9 and **their** nine-digit OBi Number.

Step 4 Set-Up an OBiTALK Account Then Add Your OBi to the Account

Go to **www.obitalk.com**

Register for an OBiTALK account. This will allow you to easily activate devices and add any commercial VoIP services used with your OBi.

The first time you log-in to OBiTALK, a pop-up window will appear allowing you to add your device.

Click "Yes" to add Your OBi Device to the OBiTALK Dashboard. After adding your device, you will be able to set up voice services and other configuration information. Multiple devices may be added as a single account.

Follow the on-screen instructions to test your OBi device to your OBiTALK account.

Once added, you will be directed to the Device Configuration page:

- Set your OBi display name, time zone, and daylight savings values.
- Select the "Save Changes" button

Step 5 Set-Up VoIP Services

After you register and add your OBi device at www.obitalk.com, the OBi Device Configuration page will help you set-up commercial VoIP services such as the Google Voice™ communication service.

Do this by selecting the **Google Voice Set-Up** button. You may also select from any one of the other listed service providers. If your service is not there, you may use the Generic Service Provider option.

Generally, all you will need to set-up a service is the User Name and Password for the service.

How to reset your OBi to Factory Default

Power on the device.
1. Locate the Factory Reset button (a little finger into the battery) just above and to the left of the Handset jack on the product label.
2. Using a paper clip or similar instrument, depress the Factory Reset Button for 10 seconds.
3. The Power LED will flash red.
4. The Power LED will flash red. This indicates you may release the button and the OBi will now be reset to its factory defaults.

OBi Device Manager Web Page Access

1. From a phone connected to the OBi, press the OBi* button.
2. Enter the IP address of the OBi.
3. Enter the OBi IP address in a web PC browser web page address.
4. When prompted, enter "admin" for username & "admin" for password.

NYC Apartment Checklist

The purpose of this checklist is to verify network connectivity to the domain using the desktop computers, and connectivity to the apartment wireless and accessibility to Citrix XenApp on both computers

4. After verifying the network connectivity, browsing capabilities and the ability to connet to the Citrix XenApp login screen. Please continue through the checklist until prompted to switch the displayed computer connected to the (KVM) and run the check on the second PC in the apartment

*** Switch the (KVM) displayed port. Please use one of the methods below**

[Scroll Lock] [Scroll Lock] [Enter]
This will switch everything (KVM and sound) to the port

[Scroll Lock] [Scroll Lock] (number) [Enter]
This will switch everything (KVM and sound) to the exact port number typed. The number must be between 1 and 4 and you must use the number across the top of the keyboard, not the number pad. This command will work even if the computer on that port is not powered on

- [ ] Check sconces in the apartment wireless
  Name: NYC apt wireless **Password:** (Should be located to the right of the printer taped to the desk)
- [ ] Check the TV, Cable, and DVD player remote controllers. Make sure all remotes are working and Cable TV can be watched
- [ ] Does your phone have a dial tone? Can you contact the WILLIAMS & CONNOLLY Help Desk at (202) 434-5000?
- [ ] Verify you can send a fax (see page 2 of the NYC Apartment Checklist for your test fax document) and that a dial tone can be heard. Is the fax machine full of paper?
- [ ] Please discard any test faxes created during the fax machine verification of the NYC Apartment Checklist
- [ ] Verify that ALL light fixtures are working properly throughout the NYC Apartment
- [ ] Verify that ALL appliances are properly plugged in to electrical outlets and function properly
- [ ] Verify that restrooms have toilet paper and clean towels in the bathroom

IV. Error Analysis $\frac{\text{Measured - Expected}}{\text{Expected}} \times 100 = \%\ \text{error}$ (4)

Trial 1

$\frac{7.18\times10^{3}-4.19\times10^{3}}{4.19\times10^{3}} \times 100 = 71.4\%$ error

Trial 2

$\frac{6.46\times10^{3}-4.19\times10^{3}}{4.19\times10^{3}} \times 100 = 54.2\%$ error

Trial 3

$\frac{7.15\times10^{3}-4.19\times10^{3}}{4.19\times10^{3}} \times 100 = 70.6\%$ error

Trial 4

$\frac{3.45\times10^{3}-4.19\times10^{3}}{4.19\times10^{3}} \times 100 = -17.7\%$ error

Percent error for the average of Joule's constants

$\frac{6.06\times10^{3}-4.19\times10^{3}}{4.19\times10^{3}} \times 100 = 44.6\%$ error

V. Results

The experiment was performed as stated in section II. Since the power supplies available in the lab were not capable of delivering 1-2 amps. at 12 volts I brought in my personal power supply from home and used it for all trials listed in this lab report. The results of this experiment, as shown by the error analysis , are rather disappointing. 50-70% error in trials 1,2,&3. After performing the first three trials I inspected the apparatus and found the heating element to be defective. The coils of the heating element were bent and making intermittent contact with each other, shorting out part of the resistance. This caused the calculation of energy to be greater than it actually was since the resistance was less than 5.0 ohms. Trial 4 was performed with a different heating element which was in satisfactory condition. Trial 4 resulted in an error of only 18%

When you ally your business with

Dear <Name>

When you're running a small business the costs sure can add up
Your phone costs are no exception. Chances are you signed up with a phone company that offered you a great deal *for the first three months*. But after the honeymoon period, higher rates kicked in and started battering your bottom line.

Alliance Phones is different. We don't just see ourselves as a vendor. We see ourselves as a strong ally of yours here to help you save costs and do business better. Which is why we save you up to 80% on what you're currently paying for your monthly business phone bill. Better yet, when you switch to Alliance, you will only pay one low monthly cost per user – that's it! The price doesn't go up after a few months. And the more phone users you have, the less you pay.

Alliance is backed by the nation's most reliable data centers and technologies

Forget those obsolete phone systems. Alliance Phones provides service to you through our proprietary platforms in the Cloud. To ensure the most consistent quality of service, we only work with the best data centers in the country – companies like Rack Space and Gigenet, both of which are powered by patent systems from Cisco and Juniper. What this means for you is 100% uptime, a guarantee that no other provider will offer you.

For a limited time only, port all your phone numbers over to Alliance Phones for free

Switching providers should be as easy as possible. Which is why, when you switch from your current provider to Alliance Phones before 1 October 2012, we will happily port your phone numbers over to our system for free. No muss, no fuss, just crystal clear, affordable business phone service.

Call us today at 1 866-358-0963 for a small business phone system consultation

Pick up the phone and call us to discuss your business phone service needs. A specialist will speak with you about your current issues, and propose a plan that will suit all your business and budgetary needs. If you'd rather contact us by email, just send your mail to sales@alliancephones.com

For more details on how easy it is to switch, just visit www.alliancephones.com/join-alliance.
We look forward to hearing from you.

Warm wishes for a strong alliance,

P.S. **Remember**, switch to Alliance Phones before 1 October 2012, and you will save up to 80% off your current phone bill. We'll even port your numbers over for free! Just dial 1 866-358-0963 today. Or visit www.alliancephones.com/jointhealliance.

TEST

Brulement d estomac La banane contient un antiacide naturel donc si vous souffrez de brulements d estomac essayez de manger une banane pour calmer la douleur

Nausées matinales Prendre une banane comme collation entre les repas aide à garder stabiliser le niveau de sucre dans le sang et aussi éviter les nausées matinales.

Piqûres de marin gouin Avant d'attraper la bonbonne d'insecticide, commencez par frictionner la région affectée avec l intérieur d une peluire de banane. Plusieurs personnes ont été étonnées par le succès de cette méthode à réduire l enflure et irritation

Nervosité Élevée en vitamines B qui aident à calmer le système nerveux.

Obésité et au travail ? Études effectuées par l'Institut de Psychologie en Autriche ont démontré que le stress au travail amène les gens à se gaver de chocolat bonbons et cronstilles Apres verification auprés de 5 000 patients d'hopitaux les chercheurs en sont venus à la conclusion que les gens obèses avaient un emploi plus stressant. Le rapport conclu que, pour evitez des rages de sucré / salé nous devons controler notre niveau de sucre dans le sang et en prenant des collations élevées en hydrates de carbones toutes les 2 heures permet de la garder stable.

Ulcères La banane est utilisee dans les dietes pour combattre les problemes intestinaux. C'est le seul fruit cru qui peut être mangé sans inconfort pour ces genres de cas. Elle protège également l estomac en neutralisant l hyperacidité et reduisant l irritation.

Controle la temperature Plusieurs cultures voient la banane comme un fruit rafraichissant pouvant baisser autant la temperature physique qu émotionnelle des femmes enceintes. En Thailande par exemple les femmes enceintes mangent des bananes pour s assurer que leur bebé naisse avec une faible temperature

Desordre Affectif Saisonnier (DAS) la banane peut aider les gens souffrant de DAS car elle contient du tryptophane qui est un relaxant emotionnel naturel.

Tumeur La banane peut également aider les gens voulant arrêter de fumer. Le B6 B12 qu elle contient de meme que le potassium et magnesium s'y retrouvant aide le corps à recuperer des effets de manque de nicotine

Stress Le potassium est un mineraux vital lequel aide à normaliser le pouls, envoie de l oxygène au cerveau et regularise la rétention d'eau. Lorsque vous êtes stressé votre metabolisme augmente réduisant votre niveau de potassium. Ceci peut etre re-calibre avec l aide d'une collation elevee en potassium telle qu'une banane

Greetings Earth People,

I am an alien being from an intergalactic galaxy. I have transposed myself onto this sheet of paper. For years my people have been visiting your planet in hopes of finding a more suitable living environment for our population. After careful consideration the "LOG" (League of galaxies) have determined that your planet is more screwed up than ours, so we decided to stay where we are.

Love,

E.T.
